MARCH.

Order No 352 of 18-3-88
This has been communicated to the
Surgeon General
~~Health Department~~
~~under the Public Dept.~~

1254
18/10/99

Mr.
16.3.99

18/10/99

121 10th Avenue S.W. (S.C.)
~~Pharmaceuticals~~

Stating that no alterations or additions should be made to — without reference to the Public Works Department, and directing that the attention of the Inspector-General of Registration be drawn in the Judicial Department to G.O., No. 1228 W., dated 18th May 1894.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads,
Civil Works.

READ—the following paper :—

From A. H. GARRETT, Esq., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 13th February 1899, No. 71/W.

1. Copy of letter from Executive Engineer, West Coast division, to the District Registrar, No. 179/M., dated 3rd February 1899.
2. Endorsement No. 65 S.E., dated 3rd February 1899, from Executive Engineer, West Coast division.

In submitting copies of the marginally noted correspondence, I have the honour to suggest the advisability of orders being passed which will prevent alterations or additions being made to buildings constructed on type designs without any reference to this department.

ENCLOSURES.

From C. J. USSHER, Esq., Executive Engineer, West Coast division, to the Registrar of Assurances, Calicut, dated 3rd February 1899, No. 179/M.

With reference to your No. 667, dated 28th January 1899, I have the honour to point out that in my letter No. 85 M., dated 18th January 1899, I informed you that work involving alterations to public buildings, such as the proposal to construct verandahs to the Sub-Registrar's office at Palghat, should under the rules in force be carried out by the Public Works Department after an estimate has been framed and sanctioned, and I asked you to inform me regarding the supposed necessity for the verandahs. In reply you state that the original proposal was to erect weather boards and that the Inspector-General of Registration suggested the construction of verandahs instead. You also state that you have ordered the work to be done departmentally. I have to request that you will be so good as to countermand this order. I am bringing the matter to the notice of the Superintending Engineer, IV Circle, in view to prevent the recurrence of matters such as this.

No. 65/S.E.

Copy forwarded to the Superintending Engineer, IV Circle, with request that the necessary steps may be taken to make it clearly understood that structural additions and alterations to buildings should not be made from funds placed at disposal of other departments. In the case in question the Registrar of Assurances, Calicut, forwarded an estimate prepared by a carpenter, amounting to Rs. 355, and enquired whether this department would undertake the work.

3rd February 1899.

(Signed) C. J. USSHER,
Executive Engineer.

ORDER—No. 651 W., dated 2nd March 1899.

Paragraph 48, Chapter IX, Volume I of the Public Works Code, lays down that all important public buildings shall be repaired by the Executive Engineer, and in G.O., No. 1228 W., dated 18th May 1894, it was decided that all buildings constructed on type designs come under the class of "important public buildings." Under these rulings no alterations or additions should be made to buildings constructed on type designs without reference to this department, and the attention of the Inspector-General of Registration will be drawn in the Judicial Department to the Government Order quoted.

(True Extract.)

Under Secretary to Government.

To all Departments of the Secretariat.
„ all Superintending Engineers.
„ the Consulting Architect to Government.
„ the Examiner, Public Works Accounts.
