Victoria Hospital for Caste and Gosha Women, Madras.

Recording, with remark, report on the working of the — for 1898.

Public (1899) Department.

CURRENT No.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From M.R.Ry. V. KRISHNAMA CHARIAR, Honorary Secretary to the Governors of the Victoria Hospital for Caste and Gosha Women, Madras, to the Chief Secretary to Government, dated 29th April 1899.

I am directed by the Governors of the Victoria Hospital for Caste and Gosha Women in Madras to submit the accompanying report (with five spare copies) on the working of the institution during the year 1898.

The numerical return of patients treated shows no great fluctuations except during the last months of the year when a slight falling off is noted owing to "the plague scare"; but attention is requested to the steady improvement in the number of maternity cases and to the progressive increase of major operations, as well as to the increase in the funded capital of the hospital and the amount of the outside subscriptions and donations towards its current expenses.

As regards the funds of the hospital, the policy pursued is explained again at page 9 of the report, and shows that its real interest lies in the continuance of the financial control and professional advice, and the consequent public confidence which it has enjoyed, by its connection with the State as an aided institution.

ORDER—No. 597, Public, dated 31st May 1899.

Recorded.

2. The Government notes with pleasure that the hospital maintains its popularity.

REPORT OF THE VICTORIA HOSPITAL FOR
CASTE AND GOSHA WOMEN.

The Executive Committee of the Dufferin Fund, Madras, have the honour to submit the Annual Report on the Hospital for the year 1898. The annual return of sick (*vide* page 11) submitted by the Superintendent shows that the hospital maintains its popularity. As regards the number of patients who resort to the institution, it must be borne in mind that the attendance is limited to caste and gosha women; if the hospital were open to all classes, a very much larger attendance would result; the special object of the institution has, however, to be kept in view.

Attendance of patients. The following shows the number of patients treated for the past nine years :—

Years.	Total treated.		Average daily attendance.	
	In.	Out.	In.	Out.
1890 	746	3,773	20	55
1891 	834	4,545	25	55
1892 	761	4,639	27	49
1893 	1,008	6,381	30·5	69·06
1894 	1,115	7,934	33	89·25
1895 	1,067	7,789	30·87	85·03
1896 	1,263	9,201	40·92	97·47
1897 	1,336	11,251	45·27	125·51
1898 	1,223	11,086	38·43	124·08

This table shows an aggregate of 12,309 patients treated as compared with 12,587 during the previous year; the trifling falling off is attributed by the Superintendent to “the plague scare” and occurred chiefly during the two last months of the year when the in-patients fell to an average of 34 and the out-patients to 112. Taking into consideration the strength of the staff, the daily treatment of over 38 in-patients and 124 out-patients *plus* 1,272 operations represents a tale of work on which the staff may well be congratulated.

Among out- and in- patients, as may be naturally expected in a hospital of this kind, the chief diseases were those of the generative system; these diseases account for nearly 16 per cent. of the former and 45 per cent. of the latter.

The following table shows the number treated during the past seven years and their classification. The Maternity cases. steady increase among this class of cases, and

the fact that many of them are women who had been in the hospital for previous confinements is noted with satisfaction:—

			Labour.				Abortions.	Total.
			Natural.	Difficult.	Pretor-natural.	Complex.		
1892	...	...	42	2	2	2	9	57
1893	...	...	47	10	9	4	8	78
1894	...	...	49	20	6	24	9	108
1895	...	...	52	23	10	25	12	122
1896	...	...	82	36	6	34	13	171
1897	...	...	113	44	12	46	12	227
1898	...	...	143	63	7	49	2	264

Of the 264 cases treated, 216 were Hindus and 48 Muham-madans. It has to be noted that the labour ward is mainly sup-ported by the Raja of Ramnad—*vide* page 19.

The following table shows the number of Operations. operations performed during the past eight years:—

	1891.	1892.	1893.	1894.	1895.	1896.	1897.	1898.
Major ...	* 118	25	24	39	41	90	133	164
Minor ...		101	409	699	978	1,266	1,234	1,108
Total ...	118	126	433	738	1,019	1,356	1,367	1,272

* Not classified in the return.

The progressive increase in the number of major operations is a satisfactory feature, as it is usually in India taken as a measure of the popularity of an hospital and of confidence in its staff.

Among the operations, as recorded at page 12, will be noted two cases of ovarian tumour which were successfully treated; these are the first of their kind performed in the hospital, and one of them is believed to be a record case as regards size and other details. Among patients treated were two cases of traumatic tetanus, both of whom recovered. The result is sufficiently uncommon to draw particular attention to it.

The following table shows the numbers of the different castes treated:—

	In-door.	Out-door.
Hindus ...	842	8,451
Muhammedans ...	381	2,635

The total number of beds in the hospital is 64, of which 38·43 were occupied during the year. The con-struction of the wards, and the number of Accommodation. beds which are, financially speaking, available, gives the casual visitor the impression that the hospital is pretty empty, even when the maximum number is under treatment.

During the year ten beds were supported by the following ladies and gentlemen:—

	No. of beds supplied.
His Excellency Sir Arthur E. Havelock, G.C.M.G.,	1
G.C.I.E. ...	1
Her Excellency Lady Havelock, C.I. ...	1
Nawab Rahmat-un-nisa Begam Sahiba ...	1
Nawab Khurshid-un-nisa Begam Sahiba ...	1
Muhammad Mahmud Khan Bahadur ...	1
M.R.Ry. A. Sankariah Avargal ...	1
Chinna Aramanai Jaghirdar of Pudukkottai ...	1
M.R.Ry. G. Narayanasami Chetti Garu ...	1
M.R.Ry. B. Hanumantha Rao Avargal ...	1
M.R.Ry. T. G. Srinivasa Pillai Avargal ...	1

These beds are only *temporarily* supported, and we cannot, when making our budget, rely too confidently on an equal number for the following year. During the year under review, for instance, a native contributor, whom we considered likely to support a bed in perpetuity, withdrew his subscription. The system of supporting beds is not an uncommon form of benevolence in English hospitals; a monthly subscription of 6 rupees is all that is required, so that for 72 rupees a patient can be housed, fed and treated for a full year, and from an invested capital of Rs. 2,000 a bed can be supported in perpetuity. It is not too much to expect that when these facts are known to well-to-do native ladies, they will be willing to help their poorer sisters.

Permanently-sup-ported beds.

No.	Name.
2	His Highness the Raja of Pudukkottai.
6	The Sarah Carmichael Orphanage Committee.

The Raja has intimated his intention of supporting these beds permanently. The object for which the money for the "Carmichael Orphanage" was originally collected having ceased to exist, the Committee now devote the funds to supporting six beds in this hospital in perpetuity.

The following table shows the endowed beds. The capital for the support of these beds has been paid and invested in the name of the hospital:—

No.	Name.	By whom.
10	To commemorate the birth of the Duke of York's son, Prince Edward Albert Christian Patrick David.	The Maharaja of Vizianagram.
1	The Lady Lansdowne bed	Sir T. Muttusami Aiyar.
1	The Lady Wenlock bed	
1	The Lady Elgin bed	
1	Nil	The Raja of Bobbili.
1	Nil	
1	Nil	The Chinna Aramanai Jaghirdar of Pudukkottai.
1	Nil	
1	The Lady Havelock bed	The Zamindar of Dévarakōta.
		Rai Bahadur A. Thanakoti Mudaliyar.

The hospital buildings are in good repair. The furniture generally is ample and in good order. Several additions were made to the instruments during the year, and they are now nearly as complete as required.

Thanks to the liberality of the Central Committee who give us Rs. 100 per mensem; we have been able to retain the Assistant Superintendent and also to employ two extra nurses. A further increase in the pay of the two senior nurses was made during the year from Rs. 15 per mensem to Rs. 20 per mensem, and instead of one nurse in the second grade there are now two on Rs. 15 per mensem instead of Rs. 10, the former rate. The weak point of the hospital administration undoubtedly is the nursing establishment, and it is only want of funds that has prevented its entire re-organization. The amount required would include new nurses' quarters which must be the first step, and then to put the nursing on a proper footing, the cost of the present establishment under this heading would have to be at least quadrupled. The Committee have much pleasure in recording their appreciation of the way in which Miss Wells and the staff generally have carried on their duties. A detailed list of the present establishment will be found in Appendix VI.

Miss Wells had one month's leave during the year and Miss E. Winckler acted for her.

Mrs. Chamier was also granted one month's leave, but it was found impossible to obtain a *locum tenens*.

The ladies on the Visiting Committee have been of much help, and by their regular weekly visits, which were seldom omitted even during an exceptionally trying season, they have been the means of keeping up a general interest in the institution, and, in communication with the Superintendent, in keeping the Honorary Secretaries and Committee more in touch with the interior economy and general working of the institution. The Visiting Committee consisted of Mrs. Firth, Mrs. Winterbotham, Mrs. Hannay, Mrs. Maitland, Mrs. Gillespie, Mrs. Meredith, Mrs. Kelly and Mrs. Benson. The Committee take this opportunity of thanking these ladies for their very kind and able co-operation.

In addition to the regular weekly visits of these ladies, the following have inspected the hospital during the year: Her Excellency Lady Havelock, Lady Mitchell, Mrs. Pelly, Mrs. Grose, Mrs. Nisbett, Surgeon-General Sibthorpe, Surgeon-General Marvey, Director-General Indian Medical Service, Lieutenant-Colonel G. L. Walker, I.M.S., and Major Browning frequently in connection with all matters of interior economy brought to his notice by the Ladies' Committee or Superintendent.

The detailed list of subscribers will be seen at page 21. It will be noted that a sum of Rs. 15,547 was received in actual cash, Rs. 10,000 of this is part payment of the Maharaja of Vizianagram's donation referred to at page 19.

The detailed statement of receipts and disbursements will be found at page 16.

Our policy regarding the funds of this hospital, as was explained in former reports, is that we do not aim at making the hospital entirely self-supporting, as we are alive to the fact that future generations should bear part of the burden of their sick and needy; we do, however, aim at raising the capital account to such a figure that the hospital will be able to stand the fluctuations of income liable to occur in all institutions similarly circumstanced. This is not only quite in accordance with the methods obtaining in countries where hospitals are not Government institutions, but a system which ordinary prudence would suggest. With this object special appeals have been made from time to time, and the sums collected, if not used for special purposes, have been passed to the capital account. All other sums are utilised for current expenses.

The immediate results, of course, of this increase in our capital account, generally speaking, mean a corresponding decrease in the Government grant, but we feel very strongly that the system of relying on Government for our annual deficit was unsound and not calculated to inculcate economy. Our aim is to try and

manage with a maximum support from the public and a minimum help from Government; as we feel that, under existing arrangements, if the institution is once identified with State hospital there will be an end to outside subscription.

Although we have, year by year for some time past, been able to depend less on Government aid, still we trust that such will never be entirely withdrawn. Under rule 4 of the hospital rule—*vide* page 15, Government, so long as

Governors appointed by Government contributes to the funds of the institution

has the power of appointing five governors
In G.O., No. 427, Public, dated 30th March 1896, the following officers were appointed:—

- A Member of Council.
- The Surgeon-General.
- The Accountant-General.
- The Venerable the Archdeacon.
- The Surgeon, Fourth District.

In addition to the Surgeon-General being thus appointed, he can, in his capacity as medical adviser to Government, inspect and offer suggestions, as the hospital comes within the category of 'State aided'; if, however, the State aid is withdrawn the Surgeon-General's connection, except as a member of the Dufferin Fund committee, ceases—a most undesirable state of things, considering the amount of public money invested on account of the institution. The above remarks may also, to some extent, apply to the Accountant-General.

The following statements show the details of the work of the hospital for the past year:—

APPENDIX I.

RULES OF THE VICTORIA HOSPITAL FOR CASTE AND GOSHA WOMEN.

1. *Name.*—The hospital shall be called The Victoria Hospital for Caste and Gosha Women.
2. *Management.*—The affairs of the hospital shall be managed by a committee subject to the control of the governors of the institution.
3. *Qualifications of Governors.*—Those gentlemen who have contributed, or who may hereafter contribute, Rs. 1,000 to the endowment funds of the hospital shall be 'Life-Governors,' and shall exercise all the rights and privileges of governors without any further payment. The names of all life-governors with the amounts subscribed by them shall be written up on the wall of the hospital on a board to be placed in a conspicuous part of the building. A subscriber of the sum of Rs. 50 yearly shall be a governor of the hospital for the calendar year to which such subscription relates, and shall be entitled to vote and exercise the privileges of a governor during such period as he may remain a subscriber of the annual sum of Rs. 50.
4. The Government of Madras, so long as it contributes to the funds of the institution, may appoint not less than five persons to be governors for the time being of the hospital; and they shall hold office during the pleasure of Government.
5. *Ordinary Meetings of Governors.*—As soon as may be after the 31st day of December of each year the governors shall hold an annual meeting, at which the report of the Committee of Management and the Medical officers on the result of the year's work shall be laid before them.
6. No special business or alteration of rules shall be undertaken at such annual meeting, unless fourteen days' notice has been given to the Secretary in writing of the intention to introduce such business or alteration of rules.
7. *Extra Meetings.*—It shall be competent for not fewer than five governors to address a requisition to the Secretary at any time, calling upon him to convene an extraordinary meeting of governors for the purpose of considering any matter which, in their opinion, requires to be dealt with before the ordinary annual meeting of governors takes place; provided that fourteen days' notice of the date and object of such meeting be given to every governor through the Secretary. No business other than that specified in the notice shall be discussed at such meeting.
8. *Committee of Management.*—The Committee of Management shall be the Executive Committee of the Madras branch of the Countess of Dufferin's Fund. It shall be responsible to the governors that the rules of the institution are carried out and that the accounts of income and expenditure are duly kept. It shall submit to the

9. The Committee of Management shall be at liberty to entertain nurses and servants as may be necessary for the wants of the hospital, and to dismiss the same when they may think fit. The Committee may also enter into contract for the supply of articles of clothing, furniture, and other necessaries as may be required for service of the institution.
10. *Superintendent.*—The Superintendent of the hospital shall be a person who possesses either a degree or a license from some recognized university or corporation to practise in medicine and surgery.
11. The appointment, dismissal and remuneration of the Superintendent shall rest with the Committee of Management, subject to the approval of the governors.
12. The Superintendent shall be responsible for the due performance of the medical and surgical duties of the hospital. She shall attend the hospital daily and prescribe for patients between the hours of 10 A.M. and 10 P.M., and at such other times as may be requisite.
13. The appointment, salary, and terms of service of the resident medical women shall be at the discretion of the Committee of Management.
14. The governors of the hospital shall submit to Government annually, within three months after the expiration of the calendar year, a report containing a full account of the management of the hospital, accompanied by such statistics as may be prescribed from time to time.

APPENDIX IV.

LIST OF DONORS OF Rs. 1,000 AND OVER SINCE THE OPENING OF THE HOSPITAL.

The Raja of Venkatagiri, K.C.I.E., Rs. 1,00,000.—This was the outcome of a promise to give any sum for building a caste and gosha hospital by the Raja. The building now in use was wholly built from this generous donation.

The Government of Madras, Rs. 44,200.

The late Maharaja of Vizianagram, G.C.I.E., Rs. 47,000.—This liberal supporter of the hospital first contributed Rs. 25,000 to the capital and initial expenses, supplemented this sum by three donations aggregating Rs. 12,000. During the past year 10,000 was received in part payment of the donation mentioned below.*

The late Mahant of Tirupati, Rs. 20,000.

Maharaja Gajapati Rao, C.I.E., Rs. 11,000.—A most prominent porter and liberal-minded zamindar. His first donation was 10,000, supplemented by a thousand when he recently visited Madras.

The Parlákimedi Zamindar has contributed as a memorial to his deceased mother Rs. 8,000.

The Hon'ble Raja of Bobbili, K.C.I.E., Rs. 6,410.—Rs. 2,000 of sum was subscribed on the opening of the hospital. The balance endowment of the "Elgin and Wenlock beds."

Raja Sir S. Ramaswami Mudaliyar, Kt., C.I.E., Rs. 5,000.—This is Raja's first donation.

Setupati Raja of Ramnad, Rs. 5,000.—This sum was contributed by this enlightened gentleman to commemorate the visit of Royal Highness Prince Albert Victor to Madras. It must be a source of gratification to the donor that the purpose to which this was chiefly put, that of supporting a maternity ward, has been successful.

Raja of Pithapuram, Rs. 4,000.—The amount shown against the Raja of Pithapuram represents his generous annual contribution for four successive years, and his death removed a certain portion of income.

late Sir T. Muttusami Aiyar, Rs. 2,777.—Mr. Justice Muttusami first contributed Rs. 1,000 towards the hospital, and lately a bed from the interest of Rs. 1,777.

the Maharaja of Travancore, G.C.I.E., Rs. 2,450.—The first by the Travancore State was Rs. 2,000, and a subsequent Rs. 250 was given the year before last and Rs. 200 last year.

The second public meeting held 10th December 1895, the Maharaja the princely sum of Rs. 25,000. This was to have been paid at the convenience; in the meantime he paid interest at the rate of 5 per cent. hath has so far altered the arrangement that negotiations are pending capital itself. Rs. 10,000 were received during the year and the balance paid during the current year.

The Zamindar of Dévarakôta has given Rs. 2,200 for the endowment of a bed.

The Nawab Ahsanalla of Dacca, Rs. 2,000.—A very liberal donation from this public-spirited visitor.

The Chinna Aramani Jaghirdar of Pudukkôttai has contributed Rs. 2,000.

The Zamindar of Kottam and Tuni has given Rs. 2,000.

Rai Bahadur A. Thanakoti Mudaliyar contributed Rs. 1,270 for the upkeep of the Havelock bed.

H.H. the late Raja of Cochin, Rs. 1,200.

H.H. the Raja of Cochin, K.C.S.I., Rs. 1,000.—Contributed on the day of his accession to the gadi.

The late Raja of Kâlahasti, Rs. 1,000.

The present Raja of Kâlahasti, Rs. 1,000.

The Hon'ble Mr. Justice Subramania Aiyar, C.I.E., Rs. 1,000.

Raja T. Rama Rao, Rs. 1,000.—This native gentleman never qualified himself as a life-governor, but took an active part in the working of the hospital as Joint Secretary.

The Tirumalpad of Nilambûr, Rs. 1,000.—This is another instance of a public-spirited landholder who interests himself in affairs of his district.

The Zamorin of Calicut has given Rs. 1,000.

Lod Krishnadoss Balamukundoss, Rs. 1,000.

The Prince of Arcot.—A most regular subscriber of Rs. 100 mensem since the foundation of the hospital.
