[Despatch Abstract.]

Considering that the extra conservancy establishment applied for by the S.P. in consequence of the absorption of the Station Hospital building into the Civil Hospital, Madras, is excessive, stating that the cost of the entire addl. medical & conservancy staff should be limited to Rs. 500 per mensem, & requesting him to make proposals for an establishment costing not more than that sum.

Asst. Kitchen Steward one on 10/15/.

To assist the Kitchen Steward in the distribution of the various diets. Now that an additional area will be occupied as wards for patients it will not be possible for one Kitchen Steward to attend the various diets within the prescribed hours & in the interests of the sick it is desirable that the several meals be not only served in time but also warm. It may be noted that the Kitchen Steward's time is solely taken up in the distribution of diets, he is on his feet the whole day from 6. A. M. to 5.30. P. M. and to alleviate the duties, an Asst. Kitchen Steward seems very necessary.

Attendant, Steward's Department, one on 10/7/- p. 4.

This man's services are solely required for the Steward's Office. The other two Attendants are fully engaged in keeping watch while the cows are being milked in supervising the boiling of the milk, in carrying letters & in multifarious duties about the Steward's Office.

Conservancy Establishment.

Gate Pans

Two on 10/7/-

Required one by day & the other by night for each the extra gate now to be looked after by the General Hospital on the evacuation of the East Wing Station Hospital. That is, on the female side of the Hospital.

Sweepers

Two on 10/4/-

Extra area now to be swept & kept clean, the East Wing having in addition to be looked after. The present establishment of 4 Sweepers cannot possibly attend to the extra block as each woman has enough area to get cleaned in the morning before the Medical Officers visit the wards.

Headman of Servants from 10/10/- to 10/14/-

Recommended as this man commands as many servants & his pay notwithstanding is 10/2/- below that of a 1st gr. Ward Attendant male & 10/5/- below that of a 1st gr. Ward Attendant (female).

Designation	Number required with salary	Reasons
Kitchen Attendants	Two on R of each	Mainly to go round with various Concoct at varied hours of the day and at other times to assist the Cooks in the Kitchen. The Cooks are sufficiently engaged whole day preparing diets & their services cannot conveniently be employed to do the distribution as well.
Massalcher	One on R of	There is now an additional area to be lighted up and an extra Massalcher will be absolutely necessary -
Dec man	One on R of	There is at present only one Dec man on R of & he is working all day taking Dec to the various Wards, takes duty every night. He goes to the Dec factory for Dec day & by night. An additional man will be necessary to relieve the present man of duty every night which is felt to be hardship.
Gardens	Two on R of each	Larger area of Compound now to be kept clean & watered &c
Lascars	Three on R of each	Larger area of building to be washed each and kept clean.
Toile Male	Two on R of each	Additional latrine accommodation is provided and will require attention

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Public Department.

SIR,

The Station Hospital which has been vacated by the Military Department and is now undergoing repairs by the Public Works Department is expected to be ready for occupation by the 31st March 1899. This addition to the General Hospital will require a redistribution of beds extending of course over a much wider area than hitherto available. Some increase of medical establishment is thus rendered necessary so that the work of the ~~Station~~ Hospital and the proper care of the patients may be effectually carried out. I therefore submit for the sanction of Government the accompanying list of increase submitted by the

Colby
21 11 21. It is impossible to say
how far the proposed establishment
is necessary. There has been no
increase in the number of beds
which will remain at 500.
There has been of course an
increase in the area to be
attended to, and as regards
the permanent establishment

proposed perhaps the removal
of the S.C. is reasonable. The
the emergency & cleaning
establishment asked for
appears to be large. Two
sallepas, four chairs and
three lessons; - some pictures
in all - seems a liberal
allowance. As regards the
gardens for it is not
understood that there will be
to any great addition to
the compound. There is no
plan of the Genl Hospital
available, but it is behind
that the Genl Hospital is
hardly a small building.
attached to it is the
apartment to the Res. Surgeon's
practice - which adjoined
the station hospital - has

to the Genl. Hosp.
The order was received
that the S.C. is to
be asked to submit a
plan or sketch of the
hospital building, also

the extra buildings & compound
not to be attended to. If
necessary repairs might be
made by the military authorities
here as to the compound & the
staff which used to be
maintained by them.

for the under Secy.

The Mr. Asst. Secy
has now furnished a statement
of the medical staff employed
in the Station Hospital prior
to its removal from the General
Hospital premises. The cost is
nearly the same as that of the
extra staff, applied for by
the Surgeon Genl, but while
the military hospital employed
16 servants, the Surgeon Genl
asks for 19. The military
Asst. had a larger permanent
staff than the Surgeon Genl wants.
The cases in the Surgeon Genl's
applies, is under temporary
arrangements. The cost of the military

permanent establishment
is well by a variety
of reasons. It is
is attached comparing the
est. establishment applied for
by the Surgeon Genl, with
that previously employed
in the military hospital

previous note it is in
connection with the conveying
staff that the S.G. present
proposals appear excessive.
While the Station Hospital
had 3 sweepers, two
lascars & a gardener,
the S.G. asks for 2 two
sweepers, four coolies, two
lascars & two gardeners.

The Govt. considers
 that the extra conservancy
 establishment applied for
 by the Surgeon General is
 excessive as compared with
 the establishment employed by
 the military authorities.
 Prior to the removal of the Station
 Hospital from the General
 Hospital premises, the
 cost of the entire additional
 medical & conservancy staff
 to be employed in consequence
 of the absorption of the Station
 Hospital building into the
 General Hospital would be limited
 to a sum of Rs. 75 per month.
