XIV (a). With reference to the answer of Government to question No. XL at the meeting held on the 9th March 1899, will the Government be pleased to state whether it is aware of the facts (1) that, in consequence of the increasing demands on their time, Heads of Departments are generally guided in the matter of filling up vacancies by their immediate subordinates who, for the most part, belong to other communities and as such have their vested interests to protect, (2) that almost all Muhammadans being employed in the public service cannot, either directly or indirectly, agitate in the matter and submit their just grievances to Government without incurring the serious displeasure of their official superiors.

(b). Has the attention of Government being drawn to the article headed the "Salt Department" appearing in the Muhammadan of the 16th March 1899 and will it be pleased to take suitable measures for removing the causes of the complaint made in the latter portion of the article, seeing that it is not the first of its kind, but is often made in public journals as well as in influential circles?

(c). Will the Government be pleased to inquire into the individual claims of Muhammadan Graduates for advancement in the higher ranks of the public service, seeing that the future progress of Higher Education among the Muhammadans depends largely on the encouragement given to these Graduates?
