This is to certify that
 Captain C. Donovan Esq.
 has now for some
 months suffered from
 symptoms pointing
 in my opinion to
 lowered nervous ve-
 getality, due appar-
 -ently to neglect of prop-
 rest and to continued
 work in the plain
 He is sleepless at
 night, he experiences

difficultly by concern
-trating his thoughts
on any subject for
a length of time
His work seems to
be increasingly worry
ing & he feels it
impossible to prevent
to detail from
constantly recurring
his mind so - need of rest and a
recall at night
? he expresses & recom-
mends these small
orries seem to

some been crazy
in the sleepless
morning hours
He has not had leave
at all for 6 years
and only 3 mo-
nths leave since
1891 and there is no
doubt now
the least doubt now
that he is urgently in
need of rest and a
change. I strongly
recommened it
