The undermentioned officers of the Indian Medical Service are declared eligible for the concessions sanctioned by the Government of India in its Resolution, Finance and Commerce Department, No. 5047 P., dated 15th November 1897, printed with G.O., No. 982, Financial, dated 25th November 1897 :—

2. The Collector of Ganjám reports that the service on famine duty of Civil Apothecary K. Jaganathan was not sufficiently prolonged to admit of the grant to him of the concession, while the statement submitted by the Surgeon-General shows that the apothecary was employed on famine duty for six and a half months. The Collector apparently considers the period incorrect, and he will be requested to report how long the duty lasted.

3. The services of the undermentioned officers named in the Surgeon-General's list do not fulfil the conditions of the Government of India Resolution :—

Senior Assistant Surgeon S. C. White.
 Assistant Surgeon B. F. Powell.

Order No 76 dated 18th January 1897.
I have the honour to state that
Mr. Surgeon Major H. M. Hall
was specially ordered during the
late Campaign from 1st February 1897
to 31st October 1897. He took special
care in making arrangements for
Medical Relief and Sanitary and
Medical provision for the best in
kitchens and for the relief of the
Sick and Wounded in the
Months of February, March & August
1897. He took effective measures to
keep it in check. He was constantly

Rowing

touring, inspecting the rations and the food supply in the Vithens which numbered not less than 47 in the District. His work was equally difficult in supervising the plague observations. He worked hard at the sacrifice of his personal comfort and convenience and thus fulfilled the conditions laid down in paragraph 3 (ii) of the Government of India Resolution.

For

With reference to G. O. no 76 dated 18th January 1899 communicating a list of medical officers who served in this district during the famine and who are recommended by the Surgeon General for the Special Famine concession laid down in G. O. no 982 Financial dated 25th November 1897, I have the honor to state that I consider that Surgeon Major H. Thomson is clearly entitled to the concession. He worked indefatigably throughout the Famine both on inspection of works and kitchens and in the suppression of small pox and cholera. The extra strain thrown upon him both in outdoor inspection and office work was very considerable.

2. In regard to the other officers, referred to I will repeat for the information of Government, the remarks recorded by me at the time on copy of the District Medical and Sanitary Officer's report, ~~copy of~~ which was communicated to me direct, and on which the Surgeon General bases his recommendations. In submitting my list I did not include officers of other departments as the Board considered that the heads of each department would deal with the case of their own subordinates.

I remain Assistant Surgeon J. C. White

It is considered that

the supervision of any single kitchen entails a great and severe strain. I cannot recommend this case."

II Assistant Surgeon B. F. Powell

"Recommended."

III Civil Apothecary Perumbam

"Did very good work. Strongly Recommended."

IV Civil Apothecary Jagannatham

"No works. But took great interest in kitchen and distribution of doles at relief centres. Recommended."

V Civil Apothecaries Holmes and Samuel

"No special or continued strain. Not recommended."

VI 1st Class Hospital Assistant J. G. Swamidass Nadar

"Did very good work strongly recommended."

3. In my opinion as recorded above neither Assistant Surgeon P. C. White nor Civil Apothecaries Holmes and Samuel can be considered in any way entitled to the concession. There were no works either at Chicaiah, Russellthondur or Aska and I do not consider that the superintendence of a single kitchen at their headquarters is sufficient to justify the grant of the concession in their cases. I doubt whether their ordinary work or correspondence at their headquarters was materially enhanced. If there was any strain in their case it did not continue for 5 months. There are many officers of other departments far more deserving to whom the concession has been refused.

4. The above remarks were penned before the orders of Government stating that mere increase of office work did not justify the concession.

Concession: On this ground I was subsequently unable to recommend the grant of the concession to many Revenue Officers. The extra work thrown upon Assistant Surgeon B. F. Powell was chiefly clerical: I have no doubt that the extra work thrown upon him was very great: but I do not think that he ^{was} forced to undergo privation and exposure. He remained in Head Quarters. I do not wish to deprive his good work and should be glad if he could be given the concession, but if it be granted to him, it must be granted also to the Treasary Deputy Collector and my Acting Huzur Sheristadar, and to Tahsildars and Deputy Tahsildars to whom it has been denied under the stricter interpretation placed upon the concession.

5. Civil Apothecary Perumbam of Zekkali and 1st Class Hospital Assistant J. G. Swamidass Nadar of Sompeth were from the first in the heart of the affected tracts, and constantly visited the works and kitchens in the neighbourhood of their headquarters. These two parts were amongst the earliest affected, and the centres of distress. They may be granted the concession.

6. Civil Apothecary N. Jagannatham of Pailakurmedi had no works to supervise and distress in Pailakurmedi commenced later and lasted for a less period than in Zekkali and Sompeth. This Officer did valuable work but I am unable to certify that for a period of 5 months or more he had to bear a special and continued strain combined with outdoor duties and constant exposure. In fairness to others who have been denied it, I cannot recommend the concession in his case. His good work might be recognised in some other way, but I do not think that as strictly speaking he can be held to come within

the terms of the concession as finally explained.

7. The medical Officers therefore that I re-
-commended for the concession are

- 1 Surgeon Major H. Thomson
- 2 Civil Apothecary Perumbam of Sakkali
- 3 1st Class Hospital Assistant J. G. Swamidas Nadas
of Sompel

In addition to the above Assistant Surgeon
B. F. Powell of Berhampur, and Civil Apothecary
K. Jagannatham of Parlatkinees, did valuable
work and no doubt felt the strain, but in the
former case it was too much of a scrippling and
clerical nature, and in the latter case not sufficiently
prolonged to admit of the grant of the concession,
without being unfair to others in other departments
who have been passed over for a similar cause.

FROM

Chief
THE SECRETARY TO Government,
Public Department,
Madras.

SIR,

With reference to Government order No. 46 dated 18.1.99 Calling for a report as to whether the Services of certain Medical officers who were on famine duty in this district fulfil the conditions of para 3 (ii) of the Government of India notification referred to therein, I have the honour to state that I have no personal knowledge of the work done by the officers alluded to, as I was not in charge of this District during the late famine. I referred the Government order for report to Mr. Ghose, the Head Assistant Collector and H. M. D. Mahdi Hussain Sahib, the Head Quarter Dy Collector, who were in charge of relief operations in Chandragal and Pyapali Divisions respectively

respectively during the famine. The former officer reports that all the Hospital Assistants employed in his Division with the exception of one had unusually arduous work to do and that they are entitled to the special leave concessions referred to. The latter officer while admitting that all the officers in his Division had their share of hard work states that none of them deserve any special concessions. I am unable to concur in this view. The distress in Pyrapatti Division was equally severe, if not more than in Pandya Division, and while the Hospital assistants in the latter Division are considered to have rendered sufficiently arduous service to entitle them to special concessions there is no reason why those in the former who had similar duties to perform should be denied them. I am of opinion that the Hospital assistants of Pyrapatti Division who admittedly shared arduous work are also entitled to the concessions referred to.

2. As regards Dr. Patch, I had no personal knowledge of his work for the reason stated above. But I venture to submit that as the Head of the Medical Department

Medical officers spoke highly
of their work as they were

arduous than ordinary hospital
work which they performed in
addition. I consider them also
entitled to the concession. The delay
in reporting is due to reference
