PROCEEDINGS OF THE MADRAS GOVERNMENT

READ the following paper :—

READ the following paper :—
 "The demand for a new and better D.L. 2019/20 issued 7th May 1898
 Regarding Dist. of members in regard duty for May 1898."

10/10/2018 10:10:10 AM
 10/10/2018 10:10:10 AM

[illegible]

Both documents are numbered with number 100. In 1989, the 10" law 1989 : here the law is of some date since the 10" April 1989 : here myself established some of the requirements shown in the establishments list the April and here you amended the abolition of some others of the document. The establishments abolished by me are the following :

(1) The "single investors" (with their returns), the providers
and the 2408 ~~same~~ leader in Soviet Union.

(8) 5 lined. Inspections and 15 rooms in the Well re. handling.

(8) All the special license establishments in the following municipalities except the District of Columbia and the District of Columbia offices require the following:

BACK PAPERS.

to be disbanded.

3. I have already recommended to Government that the appointments of my Personal Assistant and the Special Plague Officers at Kuppam and Arcot may be dispensed with. No orders have ~~been~~ yet been received on these recommendations.

4. I am now sending orders that the undermentioned establishments should be abolished on the 28th instant and this order will be in effect to, if I do not receive orders to the contrary before 28th May.

- (1) All the four Road Frontier Inspection Stations on the Mysore frontier.
- (2) All the seven observation circles on the Mysore frontier and the Supervisor in charge of the same. These four Road Frontier stations can easily be avoided by any one wishing to travel across the frontier. The circles too have so far done no cases of plague and have done very little good in other ways. They really are not worth more than a very small fraction of the money that they cost.
- (3) The three observation circles round Vellore viz. Pennagur Vaduganthangal and Vandranthangal and the Supervisor of the 3 circles.
- (4) The establishments of the Special Plague Officers and the Additional Medical Officers in Kuppam and Arcot.
- (5) The services of Dr. Lubeck, Dr. Page, and Miss Bleane. These are more required and they may be withdrawn at once.

6. There is no more staff in Wallajah, Gudiyattam, and Tiruchirappalli Municipalities than is absolutely necessary for observation purposes. I think should be maintained. I have suggested a large number of reductions in the establishment employed in the Vellore Municipality to the Chairman of that municipality and the special Plague Officer. I have asked for their opinions. As soon as their replies are received, I will send a further report.

7. The Inspection Station at Pakala was never found useful.

Municipal - Vide para 6 supra.

The Sanitary Commissioner's letter No.1494/S dated 19th May 1988 calling for a map of the district showing the existing observation circles and those proposed to be abolished was received only today. A map will be prepared and sent shortly.

Letter from the Collector of North Arcot dated 25" May 189.

2084/P

In continuation of my letter Reference on C.No.2 dated 20th May 1899, I have the honour to state that I suggested to the Chairman of the Vellore Municipality that the whole of the establishment might be dispensed with immediately, only 5 Circumstances 5 peons and two Divisional Inspectors being retained for administrative purposes and that Mr. Mayne might also be retained on the staff as the head of the above staff. I suggested also that the services of Special Plague Officers be dispensed with at the end of the year. I invited the Chairman's opinion on all the above suggestions. The Chairman agrees with me that the special Plague officers may be dispensed

As regards the staff to be retained

established that the use of the word "is" is not a decision, but a prediction in incidence, and of necessary hypothetical conditions unfavorable to the subject ^{to} which exhibit it in its isolated energy in searching, the decision must intelligently assess, in the light of the evidence, the strength of the disease before the decision. The decision must also take account of the situation, cultural, and other factors in the subject's background. In this district, prior testing within would indicate that the subject is not a long-term decision, at least should the subject be able to do so. The subject's decision, or the subject's decision, is the first decision in the district. Therefore, it is questionable if the decision is made by means of the subject's decision, the subject's decision will carry the decision in the district in efficiency, and the subject's decision will carry the decision in the district in efficiency.

[illegible][illegible]

...had to be specially guarded against
 ...of infection. It seems to be therefore that these might
 be re-arranged so as to make the indigenously affected
 more central with respect to them.
 In the Municipalities of Wallajapett and Vellore, the full observ-
 staffs required under G.O.No.522 M dated 13th March 1897, should be
 and no suggestions as to delegating the duties required to the
 staff of these Municipalities should be entertained.
 Two Special Plague Officers should now suffice for the district
 indigenously infected area should be divided between them. These
 should preferably be drawn from the I.M.S., if none is available.
 Consider Dr. Edwards to possess quite sufficient energy and knowledge
 native habits to undertake the duty of one such officer.

Under the peculiar conditions of Vellore, it is advisable Mr. Mayne
 retained. It would be impossible for the Municipal Secretary to under-
 take observation work in addition to his current duties.

I see no ground for closing the Plague Hospital at Vellore. But the
 locally trained nurse might undertake Miss Blaney's duties leaving any nurse
 that might be required to the native nurse now engaged.

Two ambulance staffs should be maintained.

Two additional Medical Officers should be retained.

No relaxation of the passport rules on the railway station should
 be permitted. An illustration of the necessity of this was afforded
 a few days back by the arrival in Madras of a plague infected person
 by rail from this district.

13 Pakala should not be abolished. It justified its existence lately
 by stopping a case of plague from Vellore, and, in any case, its position
 as a link of the general railway system of this Presidency is such that
 as long as railway inspection is maintained, its abolition cannot be jus-
 tified.

Order No. 898 P.M.S. dated 13th June 1899.

Recorded with reference to G.O. No. 878 P dated 12th June
 1899 directing the abolition of the inspection station at Pakala,
 and stating that the road frontier stations and the preventive
 circles round Vellore and Manipet should be continued for the
 present.

2. The Government considers that Mr. Mayne should be retained
 at Vellore and that Captain Trench may be sent to Manipet to take
 the place of Captain Allenby who may be sent back to regimental
 duty.

3. The services of Mrs. Edwards, Page, and Lubeck and Miss Eie
 Blaney, who are no longer required for plague duty will be placed
 at the disposal of the Public Department.

4. Separate orders will issue in regard to the withdrawal
 of the notification extending the passport rules to certain rail-
 way stations not actually infected with plague.

5. Subject to the orders referred to in para 1 above, the
 Collector's proposals for the reduction of the subordinate esta-
 blishments are approved.

For orders

In C.O. no 898 P. d.
 13. 6 98 in L & M
 Dept: has decided to
 reduce certain places
 established in N. West,
 and in consequence of this
 because has replaced
 at the disposal of the
 Public Dept: the services
 of Dr. Edwards, P.O. &
 Luback, & of his Messrs,
 a special place name.

The L & M order was not
 sent to Public for counter-
 -measures, and no warning was
 given to the Dept. that it
 was likely to have these.

office hours on its hands.
The answer is, as will be
shown, that a specialty service
in connection with his of the
doctor was not free from
playing work.

Refusing D. Edwards
There is no difficulty. He has
to Co. no 588 Public A
31-5-99 has permitted
to terminate his engagement,
and he will leave at once.

1. August 1900. Under the name of
 "Publicity of the United States"
 was sent to the Library of Congress on
 15 February 1900. The paper
 now in the Library of Congress
 has in page 7 of 60.
 548 Publi d 31-5-99
 to their office should not

be adhered to. The S.C. has
not yet intimated that
they accept or refuse the
offer. If they choose to
remain, & Govt. adheres to
its offer, it will be a question
how they are to be employed.
The L & R Dept: order does
not say that it is considered
likely that their officers will
again be required for police
purposes.

Prof. McNeary may be
given a written notice of the
termination of his employment
in accordance with the terms of
his agreement. (See page
6 of printed paper re-
Co. 1494 Public d. 12-12-90
