SUBJECT.

12.7.99. Inform
the Government
the Government will not
be able to do so

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Sanitary Commissioner for Madras, No.1000/S.,
dated 25th March 1899.

With reference to the accompanying letter, No.687, dated
20th February 1899, from the Chairman, Municipal Council, Anantapur
I have the honour to state that I have no doubt as to the urgency
of the requirement set forth by him. The following are my notes on
the subject in 1890 when acting Inspector of Vaccination and Deputy
Sanitary Sanitary Commissioner.

"The hospital: This is the most worst public institu-
tion of the nature of a hospital I have ever seen. The police and
the chief patients are accommodated in one building separated by a
partition. On an average, ten patients are received. Excluding
the stagnant air space of the roof, which is not available, the
"air ration" is but 537 cubic feet per head, against 1,000-1,500
cubic feet estimated as requisite, and 2,000 cubic feet regarded as
desirable, for hospitals. The District Medical Officer states that
he has doubts of conscience as to admitting cases for operation, as
they quickly suffer from hospitalism, and important operations have
been lost from this cause. The accommodation for out-patients is
inferior to that of an ordinary third-class dispensary"

Proposed: S.

From the District Medical Officer, Sanitary Officer, to the
Chairman, Municipal Council, Anantapur, No.1074, dated 25th January
1899.

With a view to the premises being obtained for the Muni-
cipal hospital, I have the honour to make the following observation
and request you will place them before a special meeting of the Coun-
cil to consider them.

1. The question of building upon the present Police Hospital
for Municipal purposes:— The Police Hospital is a building of Police
Hospital yesterday morning and is now in a condition of aban-
donment that this building is not fit for use and will be of
of practical use. The site is, however, a healthy one and I am
afraid many would not go there for treatment more especially in winter.

2. At the present Police Hospital there is a separate depart-
ment. This building is in a state of decay and will interfere
with the hospital of the building of a new hospital.

3. There is no recommendation for a new hospital site and I
am told the nearest site there is a house which is proposed for him
would be about one mile distant. The distance from the site
200 yards.

4. If the present Police Hospital were converted into a Muni-
cipal hospital, it would be a very good one and would be a great
in the town for out-patients. This is a very good site from fi-
nancial considerations the land is very valuable to use.

5. I am of opinion that the new hospital should be built on
the site of the present hospital and the site is a very good one
construction, if one could be obtained, it would be a very
bit.

6. It is a very good site for a hospital and it is a very
standard plan for a hospital.

2. I agree with Captain Robertson as to the unsuitability of the Police Hospital. I see no objection to his proposal to have the new hospital on the site of the old. Should further room be required than is there available, a portion of the Jubilee Park can be turned to more use than it is ^{at} present by utilising it for this purpose.

Enclosure: 1.

From the Chairman, Municipal Council, Anantapur, to the Secretary to Government, Local and Municipal Department, through the Sanitary Commissioner, Madras, Ref. on G. No. 687, dated 20th February 1899.

The question of building a new municipal hospital has been pending for the last ten years. Proposals after proposals have all along been made, the last ending with G.O. No. 1794 M.Mis., dated 20th October 1898, intimating that the Police Hospital building will be handed over to the Municipality for housing the Municipal hospital there, in case it undertakes to extend the building so as to accommodate the Police patients also.

2. The Council having signified its consent to the arrangement, necessary estimates &c. for the extension are, I believe, under preparation by the Public Works Department.

3. The District Medical and Sanitary Officer now brings forward a suggestion that for reasons given in his letter (copy herein enclosed) the proposed hospital may be built on the site of the present building and this has also met with the approval of the Collector.

4. The Council, in dealing with the subject, resolved that the matter be referred to Government, through the Sanitary Commissioner, and an expression of its opinion obtained in the matter before finally disposing it of, in view to any arrangements that may be made being harmonious to Government and acceptable to the Sanitary Commissioner in a sanitary point of view, though so far as it is concerned the Council will only be too glad to have a hospital built in the heart of the town.

5. I have the honour to solicit that Government be pleased to favour the Council with its opinion in the matter.

Enclosure: 2.

7. In conjunction with a new hospital, premises will also be necessary for the District Surgeon's Office.

8. As regards the cost, the District Board, will, no doubt, contribute a valuable consideration and I have no doubt that Government will contribute liberally towards this institution as it is well known that the District Board and Municipality are not prosperous. If a contribution cannot be made by Government, no doubt, the question of a loan may be considered.

9. If you will intimate to me the date fixed for the meeting I shall see my utmost to be present.

10. The present hospital buildings are positively dangerous and I fear the hospital may have to be closed during strong winds or heavy rainfalls in the ensuing season.

Enclosure: 3.

Extract from the Proceedings of the Municipal Council, Anantapur, at a meeting held on the 16th February 1899.

I. Read letter, No. 1270, dated 20th January 1899, from the District Medical and Sanitary Officer, Anantapur, making some observations in regard to the erection of a Municipal hospital and suggesting that, for reasons given, it should be built in the present site.

R E S O L U T I O N.

Resolved that the papers be submitted to Government through the Sanitary Commissioner for necessary instruction.

From the Surgeon-General with the Government of Madras, No. T. 8/197, dated 12th May 1899.

With reference to your endorsement, No. 475, dated the 27th April 1899, on current No. 914 M., herewith
+ With two maps.
+ returned as requested, I have the honour to report for the information of Government that I consider the construction of a new Municipal hospital very necessary and that the site proposed would do, provided the suggestions of the Sanitary Commissioner are carried out.

CUMM. NO ¹⁷⁸⁷~~2688~~

O R D E R:- No.833 M.Mis., dated 13th June 1899.

In the circumstances stated by the District Medical and Sanitary Officer, the Government will not object to the new Municipal hospital being built on the site of the present hospital.

2. The Municipal Council's attention is drawn to the remarks of the Sanitary Commissioner in para.2 of his letter.

(True Extract)

A. H. J. S.
For Secretary to Government.

To

The Chairman, Municipal Council, Anantapur,
through the Collector of Anantapur.

Note. The history of the proposed transfer of to the municipalities of the Police Hospital at Annapolis is given in the note placed BT in p. 100 of Public of -
The S. S. will probably now again come up for a separate Hospital Act. for the Police

distance from the Mund
Hospital. The appl. of a
 separate Hospital ant. was
 refused in G.O. No. 52 of 12.3.56, & the Mund Hospital
 ant. was granted an allow-
 of Rs. 10 per mensem to meet
 in the Police Hospital. It
 seems unnecessary to do more
 than communicate the present
 order to the S.G. & D.G. of
 Police. If proposals come
 up again regarding the pro-
 vision of a Hospital ant., they
 can be considered.
