Madras Railway Company,
President-Engineer's Office.
14th Division, South West Line
Beyforn, 31st October 1865.

Report on the works at Beyforn Pier
for the month ending 31st October 1865.

At the commencement of the heavy monsoon
weather the Pier works were suspended, and all
plant and stores made fast and secured for the
season.

The works suffered no damage whatever
during the monsoon.

At the close of last month I received
instructions to prepare for work again and
the first portion of the month was occupied
in rearing the pile Engines: erecting temporary
staging at the shore end &c. &c. For this
reason I omitted the report due on the 15th
instant.

For convenience I have had all
the openings, including those recently sanctioned
numbered.

- No. 1. Opening - Four piles have been driven, and
one transom fitted.
- No. 2. - Remaining two piles driven and
transom fitted.
- No. 10. - Two longitudinal fitted
- No. 11. - Four longitudinal and six straining
pieces fitted.
- No. 12. - Six straining pieces fitted
- No. 18. - (First of the 12' openings) six
longitudinals fitted and six
plumber blocks fitted in place.

- to 19 Opening—Two piles driven, transom and
plumber blocks fitted.
" 21 — " — Pile heads cut & transom fitted
" 23 — " — Piles reduced to level of 12' openings
and transom fitted.

About 20 feet of very good
rough ballast has also been tipped
in re-construction of the embankment.

the Provisional Chief Engineer for 11 out of the
18 miles, and the former being that supposed
to be a moderate estimate for the whole 18 miles.
2. Perhaps as the lower amount is that
reported by the Chief Engineer, the Government
may wish to alter thereto the amount retentive
in para 5.
