Sir,
In reply to your Memorandum N^o 200 of 14th instant, I have the honor to state that a map illustrative of the present state of the system of works in the Delta of the Godavary is under preparation, and a mass of information has been collected from the Range Officers in that part of the Division for the compilation of

of a Report which, I have no doubt, Captain Ryves will be able to furnish shortly after his return to duty.

2. My own knowledge of the works in the Delta is at present so limited, that I could not expect to compile so complete and accurate an account of them as Captain Ryves will do; and I have no doubt you will concur with me that in the preparation of so important a record of the labours of this Department, it is desirable that Government should have the advantage of Captain Ryves's intimate acquaintance with the condition and results of the works in question.

3. Should you, however, decide that I am to undertake the

the Report, I have the honor to request permission to make one^{1st} tour of inspection in that District before doing so. This I am at present unable to do, having the works of my own Range to attend to, as well as the current work of this Office.

Adverting to your Memorandum N^o. 180
of 11th ultimo, and to G.O. N^o. 2083 dated 20th July
last, I have the honor to express my opinion
that the subordinate servants of this
Department, including the members of Range
Establishments, when they have occasion to
travel by sea, should be provided with a
deck passage.

2 I am also of opinion that when a subordinate
servant merely travels from one port to
another within the Division to which he is
attached, passage for a servant need not
be allowed; but that in the event of his
being ordered to proceed beyond the limits
of the Division he should be provided

Sir.

With reference to the order of Government
No. 2083 of the 20th Ultimo, I have the honor to report
No. 38 - 24th Ultimo that I have written to the Superintendent of Marine on the
subject of the description of passages to be allowed
to Members of Office Establishments, when required
to proceed by sea by Coastwise vessels, and that Officer
has, in a Circular letter of the 11th Instant No. 2898,
stated that he considers that clerks drawing Rupees
250 a month and upwards should be provided with
a Cabin passage which entitles the recipient to a
berth in a Cabin aft and mess at the Saloon table
2nd That those drawing Rupees 100 to Rupees 250 should
have an "intermediate" passage entitling to a berth
"in a Cabin forward and mess at a secondary table"
and that all clerks drawing less than Rupees 100 a
month should have a warrant Officer's passage "by
which a screened berth is secured having a sleeping
place in it, and plain mess." The Superintendent of Marine
also considers that all uncommissioned Officers of what-
ever grade should be allowed to take one servant.
2. Mr. Franklin considers that the simplest mode

of regulating the style of passage is by the salary drawn, and he adds there may be cases where an officer might be considered entitled to a superior style of passage than that which this rule would assign to him, but such might be made matters of special consideration.

3. I consider that the arrangements proposed by the Superintendent of Marine will generally be found as suitable as present circumstances will allow. When native gentlemen, in greater numbers than at present, use the coasting steamers, as a means of passing from port to port, there will probably be provided for them a class of passage more adapted than any now afforded, to their habits. The native clerks, whether of the superior or subordinate grades, would not like to mess either in the saloon, or at the secondary mess table, and it is rather the convenience in the way of sleeping accommodation and facilities for washing &c., that the differences in the class of passage will affect them.

4. As regards servants the heads of officers might be allowed to determine whether under the circumstances of the particular journey a servant should be considered necessary. Much would depend upon what was intended to be done at the end of the sea voyage. For instance, were a land journey to follow the sea passage,

a servant would generally not be wanted by a clerk. -

Sir
I have the honor to acknowledge receipt
of your letter of the 30th instant, No. 1803, and in return-
ing its enclosure to express my regret if any inconve-
nience should have arisen from my not having
sooner replied to your letter of the 2nd August last,
No. 865. It occurred to me that my Circular of the
11th of the same month so clearly indicated my views
on the subject of passage for uncovenanted servants,
that it did not require reply.

2 On repursing your letter in question,
I feel somewhat doubtful whether you are merely
desirous that I should specify what would be a
reasonable charge for a servant, or whether you
wish for an opinion on the general question.
Of the latter I can but refer you to my Circular
of the 11th August: if the former you will perceive
that the charge must vary according to circum-
stances, and no fixed rate can be adopted.

Sir

With reference to Proceedings of Govern-
ment of the 11th July last, N^o 155, I have the honor
to suggest the following scale for the description of
passage to be granted to Uncommissioned Officers proceed-
ing from port to port by sea, and shall be glad to
receive any observations thereon you may desire to make.

2

I have endeavored as near as possible
to assimilate the style of passage to that ruling in mili-
tary embarkations, but the Steamers on our Coast have
introduced a description of passage called 'Intermediate'
or 'Second Class'; which was not known, or at least
avoided of when the Military regulations were laid down.

3

These Steamers grant six descriptions of
passage - namely

1st Cabin - which entitles the recipient to a berth
in a Cabin aft and mess at the saloon
table.

2nd Quarter deck - giving all the privilege enjoyed
by a Cabin passenger with the exception of
a sleeping berth or cabin.

3² Intermediate - entitled to a berth in a Cabin forward and mess at a secondary table.

4⁵ - Warrant Officer's passage, by which a reserved berth is secured, having a sleeping place in it, and plain mess. If messing is not provided the Warrant Officer draws a table allowance of 3 Rupees a day. This is purely a Government passage, not open to the general public.

5⁴ - Tween deck passage } without screen
6³ - Upper deck passage } or compartment.

4 The simplest mode of regulating the style of passage is by the salary drawn. There may be cases where an officer might be considered entitled to a superior style of passage than that which this rule would assign to him, but such might be made matter of special consideration. I would therefore propose the following scale.

All Officers drawing 250 Rupees } Cabin
a month and upwards..... }

Off... drawing 100 Rupees and } Intermediate
less than 250..... }

Off... drawing less than 100 } Warrant Officer's
Rupees..... } passage

5 As regards servants: Warrant Officers of Departments are permitted to take one servant each when embarked. I would grant the same privilege to all Uncovenanted Officers of whatever grade.

Your Most Obedt Servant.

cated in G.O. 20th idem N^o 2083 P.W. Department
I have the honor to state that under the
G.O. 11th August 1858 N^o 1599 } orders of Government
.. 11 Oct^r 1860 N^o 2118 P.W. Dep^t. } noted in the margin
certain classes of

Passage by sea have been allowed to the
Subordinates of the Public Works Department
whose rank and pay, assimilated with the
warrant and Non Commissioned grades in
the Ordnance Department.

2. It appears to me therefore
that in like manner the Uncommissioned
Service generally whose rank and pay
assimilate with those of the above grades
may be allowed the same description
of passage and that those who are entitled
to Cabin passage only should have the
benefit of a free passage for a servant at
a reasonable charge which I leave it
to you to specify. I request you will
be good enough to furnish me with your
opinion

Marine Department merely re-
quires a report from Heads of Officers
or Departments as to what passage
their subordinate servants should be
provided with, and whether they should
in any case be allowed a passage for a
servant: para 5 of this Circular however
disposes of this latter portion of the
order and I presume this arrangement
will be approved of by the Government.

3 As regards the passage
to be allowed to subordinates I would beg
to recommend this be regulated
according to the rank or class in which
they are placed in the Department and
the style of passage be given in accord-
ance therewith, in the same manner as
Travelling allowance is granted.
