RESOLUTION.—The Budget Estimate of Capital outlay on the South Indian Railway for the first nine months of the year 1890-91 has been separately considered. This Resolution deals with the estimated outlay during the last quarter of the official year 1890-91, commencing from 1st January 1890, on which date this line will probably be taken over by the State and worked by the Company under a new contract.

2. The Budget Estimate for the last quarter of 1890-91 was at first submitted for a *net credit* in India of Rs. 69,163, but the figures finally recommended for adoption are as under:—

	Rs.
Final Heads of Account	88,337
Suspense	—1,08,501
GRAND TOTAL	—20,164
<i>Deduct—</i>	
Debits to the Indian books by credits to “Expenditure in England” for value of English stores received and other items charged off in England	2,00,000
Net Indian Outlay	—2,20,164

3. As it is scarcely possible to estimate with any degree of accuracy the result of the Capital transactions for the three closing months of 1890-91, the Government of India does not consider it expedient to anticipate a net credit, and assumes that the expenditure in England, estimated at Rs. 2,00,000, will be covered by credits realized in India, and accordingly passes the Budget Estimate for a *nil* figure.

4. The expenditure incurred in England in connection with this Railway will not be treated as a final charge in the Home Accounts, but will be treated as "Remittances to India." This expenditure will be brought on to the Indian books by credit to 'London Account,' and will appear as Indian outlay. The deduction on account of "Debits to the Indian books," &c., should therefore be omitted from the final issue of the Budget Estimate.

5. The final issue of the estimate should be prepared and submitted so as to reach the Government of India not later than the 1st May 1890.

ORDER.—Ordered, that a copy of the above be forwarded to the Government of Madras, Public Works Department, for information and guidance, with the request that 35* copies of the final issue of the estimate, as now passed, may be submitted in the usual course.
