Sir,

In continuation of my letter No 357 of the 7th instant I have to inform you the Managing Director telegraphed to me, under that date, that the English Accounts for December would leave by the next mail. The accountant had been ill, but he was then able to attend to business.

In order to save telegraphic inquiries from the Government of India relative to the rendering of the December accounts at due date, I wish to know if that Government would desire to receive an approximate statement of the December working, or whether they wish the rendering of the account delayed until I receive the English Journal. The usual half yearly statements cannot of course be prepared until we are in possession of the information which the English accounts afford.

I am,
Sir

Your most obedient servant
Walter F. Hooper
