Sir,

Your letter N: 360 of the 26th ultimo
The Chief Engineer asks for a reconsideration
of your ruling, on the following grounds.
"The Deputy Chief Engineer's Head
Quarters are in the Centre of his circle after
"marching on Inspection to either end it is desirable
"that he should return quickly to Head Quarters
"and be able to proceed on Inspection on either side -
"if he has to march his horses back, it practically
"means that he is not able to do any further ins-
"pection for about 10 days; this is evidently not in
"the interest of the Service. I shall therefore be
"obliged if sanction be given for the Deputy Chief
"Engineer to be allowed to carry horses and camp
"equipment by rail whenever he returns from, or
"proceeds on Inspection I consider it is one of the cases
"for which Para 1093 of G.S. Regulations expressly
"provide".

3. The Examiner of Railway Accounts is of opinion that with reference to the Civil Service Regulations quoted above the claim is only admissible when an officer is required to proceed very quickly or readily equipped for urgent duty to a distant place for which the special sanction of government is necessary. He adds that "it is part, and the principal part of Mr Spalding's duty to be on tour and for which he draws the usual Travelling allowance."

4. This was pointed out to the Agent, South Indian Railway, and in his letter No. 497, dated 10th instant, herewith forwarded, asks for a reconsideration of the

the case on the grounds explained by the Chief Engineer.

5. Similar claims were sanctioned in

G.O. No. 64 R dated 15 January 1890. Government orders marginally noted but on the last occasion the claim was said to be an exceptional one arising out of the tour of the Consulting Engineer to the Government of India.

6. It is requested that this office may be favored with the interpretation of government in respect to article 1093 of the Civil Service Regulations with special reference to the Deputy Chief Engineer's claim and to the objection taken
