**Railway.**

Read the following paper :—  
From the Agent and Manager, Madras Railway, to the Consulting Engineer for Railways, dated Madras, 14th April 1893, No. E. 346/305.

With reference to minute No. 17, schedule J, of the official meeting and stores committee held on 24th March 1893, I have the honour to forward, herewith, an estimate for twenty houses proposed to be constructed for native firemen at Jálárpét, and to request that the sanction of Government may be conveyed to me for the required outlay (Rs. 6,044) chargeable to Capital.

2. The design for these houses is in accordance with plan No. 3152 forwarded to you with my letter No. E. 312/786 of 13th September last.

3. In explanation of the necessity for the work, the Acting Locomotive Superintendent writes as follows:—

"The twenty houses for natives at Jálárpét are asked for to enable us to house certain members of our staff who at present live in the parchy, which is at the north-east corner of the Company's compound and which has been an eyesore for many years back. It is most desirable that this parchy should be cleared away entirely and the building of these houses is a means towards that end, it being clearly understood by the occupants of the huts that, as soon as the Company have house accommodation to give them, the huts now occupied by them are to be razed."

4. The matter received my support at the official meeting referred to above at which it was brought forward after discussion both on inspection and at an officers' meeting.

5. Information as to provision in the budget and date on which sanction will lapse is given on the estimate.

In my recent inspection  
I inquired into  
this - the accommodation  
required is reasonable - The collection
