Sur

Referring to your Estimate No 333 dated the 23rd January last, I have the honor to submit a draft declaration for the 99 cents said to be required for a ballast pit by the Maravaram - Muthupet Railway in Kelangudi village, Kelapattam Taluk and to report as follows:—

2. From the original plan and schedule dated the 5th October 1892 of the lands required for the work, it was observed that 2 acres 34 cents of land were required, and as the said lands were also needed very urgently by the Railway Company, a portion of those applied for was transferred in anticipation of formal acquisition by the Revenue Inspector of Tiruvalur to the Resident Engineer on the 10th November 1892 and a receipt obtained from the latter officer for an extent of 99.91 cents. & meanwhile original application was cancelled and revised plans and schedules were sent for the acquisition of only

99 cents (vide Consulting Engineer's letter No 55 dated 12th January 1893). These were sent to the Tahsildar in supersession of the original plan and schedule, and it is now reported that only 99 cents (viz. the portion marked out as required in the revised schedule) were transferred to the Railway Department and that the entry of 99.91 cents in the receipt furnished by the Assistant Engineer is incorrect. A fresh receipt has since been obtained from the Executive Engineer Mr Campbell indicating the transfer of 99 cents and is herewith submitted.

3. The 99 cents required are measured as in the Pump and belong to Kittelisinga Pandarasannade, Manager of the Annadanakottai of Sri Theagarajapuram temple and his agent Ramasamen of Tiruvallur consents on his behalf to part with the lands on receiving Compensation at 8 annas per guli which comes to Rs 149-11-10. This rate is reported to be fair and reasonable.

4. Negapatam Tahsildar's order No 1387 dated 30th June 1893 with 8 of its enclosures is herewith sent for reference and return.

I have &c &c.

(Signed) C. G. Talhunte.
