DATED SITANAGRAM, the 28th January 1894.

Sr.

I have the honor to point out that when the various parties engaged on this survey have finished work in the field it will be necessary to fix on some suitable place for carrying on the work connected with the completion of the project.

2. There does not appear to be sufficient or suitable accommodation here for the whole staff and I would propose that Comoor would be selected as the headquarter station.

3. I shall be glad if you will state whether this meets with your approval as it will be necessary to make early arrangements for house room.

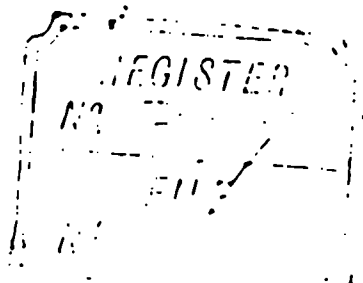

The Staff may go to examine
for completion of the work
Work provided for. are not
but to any reference more
there would have been in-
tended had they remained
is immore -
