With reference to G.O. N° 18, Public, dated
the 15th January 1895, I have the honor to state that
Civil Apothecary J.C. Rajaram Naidu, doing duty
in Madras, has been placed at the disposal of the
Engineer in Chief, Arcot-Mangalore Railway
Survey, and directed to await further orders re-
garding his destination and date of his departure.

I have, therefore, the honor to enquire
when his services will be required and to whom
and where he should report himself for duty.

I shall feel obliged by being in-
formed what his duties will be to enable me
to determine what medicines &c he should
requisition for.

I have the honor to acknowledge
your endorsement No. 236 dated
22nd instant regarding the appointment
of a medical Subordinate with
reference thereto I beg to point out
that our being provided with small
field service medicine chest is an
error. I have obtained for each
officer a small Stores Chest but
I require a small Field Service
chest to be sent with the medical
Subordinate.

Sir,

I have the honor to report that Medical Subordinate applied for in December reported himself on 24th February 1895 and yesterday I received what the Medical authorities style as a Railway Companion embazoned with a Lencua cross. So far as use goes this may perhaps be useful for an Apothecary in charge of troops travelling by rail but how such a useless case could have been sent to meet the requirements of a Survey party in an unhealthy and malarious District is not to be understood. It contains very few medicines and in absolutely insufficient quantity for any practical use beyond its apparent intention as a Medical Companion. I applied for a Light Field Service Pack which to the lack of my recollection is the nomenclature for what has been previously sent to her on similar duty, and I request that the Medical authorities may be addressed and asked to equip her without delay with an efficient Medical Pack to meet the requirements of the office.

dated 5th April 1895.

22 AUG 1895

On the 5th instant I forwarded
a printed indent prepared by the Civil
Apothecary direct to the Secretary Surgeon
General. The Apothecary had before this
on the 10.3.95 sent in direct an indent for
the medicine he required to the Secretary
Surgeon General who on the 26.3.95 returned
it to be sent in on a printed indent
which was duly sent forward on the 5th by
me. The exact case now stands thus. On
December 16th letter N^o 25 I applied for
a Medical Subordinate which was sanctioned
by Government on 31.12.94 in G. O. N^o
728. The man reported on February 24th
and

and some few days later an absolutely useless Medical Companion arrived about which I have written. On 10.3.95 the Apothecary indicated for medicine, his indent was returned to be sent in on a printed form but no medicines sent.

From December 31st the date of the G. O. sanctioning the appointment of the Medical Subordinate, to his arrival two months elapsed, since then he has had no medicines except such as are comprised in a small Moore's Medicine Chest with which I have supplied each party, and his indents have been returned to comply with a formality, which could have been as easily effected after the supply of the medicine as before.

The officers, subordinates and men have therefore been working in a malarious climate without medical appliances, all this time and before they arrive will probably have come in from the field. I think that some notice should be taken of the "useless" Medical Companion and the delay in supplying medicine on

on my request for a Light field Service chest which I believed to be the correct nomenclature" and the Apothecary's indent.
