1894-95

The outlay proposed in the Revised Estimate was Rs. 49,00,000. This has now been increased to Rs. 57,00,000.

The latest information to hand indicates the probability that the figures given in the Revised Budget will be exceeded. Additional provision of Rs. 26,000 has been made for the payment of the Company's share of surplus Profits for the account of the 1894-95.

EXAMINER'S REPLY.

1894/95 Receipts - No modification is proposed in the estimate of Rs 83,00,000 previously submitted as there is every probability of its being realized.

Expenditure Judging from the actuals to date and the anticipated outlay for the remainder of the year, the estimate of Rs 49,00,000 will prove insufficient by about one lakh, it should therefore be increased to Rs 50,00,000.

1895/96 Receipts No alterations appear necessary in the estimate of Rs 85,00,000 previously submitted.

Expenditure

Expenditure - The estimate was originally framed for Rs 53,00,000, but it is now proposed to increase this to Rs 55,50,000. The agent gives some particulars as marginally shown which cause this excess. It is for E.R. to decide whether this additional provision is necessary and whether the large outlay incurred, during the past on the maintenance and renewals of Engines and Vehicles, should be continued during this official year as well. The amount proposed for Working Expenses absorbs about 62.7 per cent of the Earnings.
