EXAMINER'S REPLY.

The estimate is correct as to allocation and requires the sanction of the Local Government.

Funds are available from the grant for unsanctioned works, Schedule

B of Budget 1895-96.
 I assume this was settled by you on inspection of the Budget which will have stated detailed sanction. The description given in the letter is so vague that I don't understand the scheme. I suppose the works will be done and was used for the same point which is now to be replaced by a steam pump.
