General,

To look after the work of the
Special Surveying Department,
Bogotá, Colombia Railway.

The Director of the Bogotá Railway
has the honor to inform me that I reported
to the Engineer-in-Chief, Bogotá, that I reported
on the 17th September 1895, with reference
to the 3553 miles, about 2 September 1895, commencing
with your endorsement to 2500 of the 8th June.
He informed me that the Bogotá, Guaduas Railway
line would be divided into 4 divisions of which I would
be placed in charge of 2, not requiring land from the
northern end. He suggested that my headquarters be
Bogotá for the present, from which place I should
acquire land simultaneously north and south, and that
provision for my office establishment had better be
submitted through you.

revenue inspector has therefore hardly time enough to measure the lands above referred to promptly before they can be handed over to the railway authorities. I am unable in these circumstances to call him back here for the purpose of measuring the lands which I am now called on to acquire in the Saidapet and Ponnai taluqs and thus disturb the arrangements already made. I beg therefore to request that you will be so good as to depute an ordinary revenue inspector for the purpose of measuring the lands now in question until they are completely measured and to direct him to report himself to me at Ponnai before the 15th instant.

I have not yet received land plans and schedules for about five villages in Ponnai taluq and it is very probable that I may receive them shortly. To measure these lands another revenue inspector is absolutely necessary for some months at least as the one already appointed cannot manage the work simultaneously in three different districts. I think therefore,

that if another special revenue inspector is appointed forthwith, he may conveniently attend to the present application for land in the Ponnai and Saidapet taluqs as well as to any future applications that may hereafter be received for land in the former. His services may, I think, be required for about three months. If a revenue inspector from the ordinary staff can not be solely deputed for the special work in the three villages mentioned in para 1 of this letter and if you consider it advisable to appoint another special revenue inspector at once, I beg that you will be pleased to obtain the necessary sanction of Government for his entertainment. His services will of course be dispensed with as soon as all measuring work in the Saidapet and Ponnai taluqs is completed. As in the case of the other revenue inspector, the pay of this additional revenue inspector may also be fixed at Rs 45 plus 15 Rs horse allowance per mensem. I further beg that you will be pleased to appoint a man in anticipation of the
