Read the following paper :—

From the Officiating Under-Secretary (to the Government of India, Public Works Department (Railway Stores), to the Joint Secretary to the Government of Madras, Public Works Department, Railway Branch, dated Calcutta, 31st December 1891, No. 282 R.S.

I am directed to acknowledge the receipt of your No. 2954 R., dated the 8th December 1891, forwarding copy of Proceedings of the Government of Madras relative to the proposed increase of rolling-stock for the South Indian Railway undertaking and its extensions and soliciting the orders of the Government of India on the proposals.

2. In reply, I am to say that the figures, as given by the Consulting Engineer for Railways, Madras, viz.:—

[illegible]

excluding provision for the Guntakal-Bangalore line, are accepted by the Government of India as showing the minimum increase of rolling-stock required; but I am to add that, before passing any definite orders in the matter, the Government of India would prefer to await the views of the Board of Directors as indicated in their letter, No. 42 of the 20th November 1891, to their Agent in India on the subject.

ORDER—dated 9th January 1892, No. 73 R., Public Works.

Communicated to the Consulting Engineer for Railways with reference to Proceedings No. 2953 R., dated 8th December 1891.

Sir,

Referring to the additional rolling stock for this Railway sanctioned by Government of India letter No. 282 R. S., dated the 31st December 1891, vide Madras Government Order No. 73 R. of the 9th of January 1892, I have the honor to inform you that it is very desirable the balance of 12 — Locomotive engines required to complete the 32 sanctioned in the above order should be got out from England. It is requested that sanction may be accorded to these 12 engines being of the 'O' class type with the reduced axle weights of the engines of this class now running on the line.

These engines are of an excellent type, do good work, and in view of avoiding a different design and to secure interchangeability of parts, it is important the engines proposed to be obtained shall be similar to those on the line.

There is some corr. going on with the O class as now offered to — put up with the same — 5/12
