

Public Works (1896) Department.

RAILWAY BRANCH.

G.O., No. 523R

DATED 13th June 1896.

[Despatch Abstract.]

Memorial. — Forwarding to the Government of India, for such action as may be deemed necessary, a — from Mr C. H. Farewell, temporary Engineer, praying that he may be granted an appointment on a graded list of Engineers on a non-pensionable scale and be allowed the advantages of such appointments.

[illegible]

G.O.	No.	Department.	Date.

His Excellency
The Earl of Elgin & Kincardine, G.C.B., G.C.I.E.
Viceroy & Governor General of India

Your petitioner respectfully sheweth that after undergoing the pupilage and training of a Railway Engineer, in England and having served as sub. for the in the annexed memorandum of services, he entered the service of the Government as a Temporary Engineer and has for nearly six years continuously served in Burma and in India on the Construction and surveys of railways.

He submits that the existing rules under which he has annually to review his engagements for twelve months, subject to a month's notice of termination of

of appointment; or, being left without employment on the completion of work are harassing and place him in a constant state of uncertainty as to his future.

His long, continuous and reliable service approved by the Government has induced him to decline offers from other employers of a more or less permanent nature in the hope of some more favorable conditions being granted to Temporary Engineers.

The recent retirements from the Public Works Department and the expansion of Railways have very largely increased the number of Temporary Engineers which now forms over 10 per cent of the active strength of the Department.

Your petitioner therefore prays that:-

1. He may be granted an appointment on a graded list of engineers similar to those held by the officers of the Locomotive and Traffic Departments of the State Railways on a non-pensionable scale.

ii That he may be allowed "passipassu" promotion with other permanent officers to such extent as his merits deserve and be placed on the same footing as to Privilege Leave, Furlough and Continuity of Service as the Locomotive and Traffic Superior Staff are now entertained by Government.

iii That he be allowed to join the Civil Engineers' Provident Fund or the State Railway Provident Fund under such rules as may seem good to Government.

iv That he may be allowed to look forward in the future to a bonus for each year's approved service as is the custom with Companies whose servants are non-pensionable and, in conclusion your petitioner relieved of all anxiety as to the continuity of his service and his prospects, will be ^{the} better able to cheerfully render in the future the same zealous service he has done in the past.

And your Memorialist, as in duty bound will ever pray.

Your Sincerely, Chas. D. Fiske
Signed, Chas. D. Fiske
June 5th 1896 D. W. Survey, Bangalore
