6

Estimate of Rs. 2,910 for constructing a — at Tenali, in the Kistna Western division, sanctioned, and the scale of establishment proposed for the wharves, approved with remarks.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following papers:—

From the Executive Engineer, Kistna Western Division, to the Superintending Engineer, II Circle, dated 4th August 1894, No. 262 S.

With reference to your No. 2063 K.S., dated 24th November 1893, I have the honour to forward, herewith, an estimate amounting to Rs. 2,910 * for constructing wharf at Tenali, together with survey and sections for sanction.

* As corrected in Superintending Engineer's office.

2. As there is no provision in the project statement, the estimate is recommended for sanction from the provision for unforeseen works of Kistna delta system.

No. 1233 K.S.

Forwarded to the Chief Engineer for Irrigation, for favour of obtaining the sanction of Government to the estimate, amounting to Rs. 2,910, for constructing a wharf at Tenali in the Kistna Western division, from the balance available for unforeseen works of the Kistna delta system.

1st September 1894.

(Signed) W. L. C. BADDELEY, Major, R.E.,
Superintending Engineer, II Circle.

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated 6th July 1896, No. 866 K.W.

With reference to this office No. 1233 K.S., dated 1st September 1894, submitting the estimate, amounting to Rs. 2,910, for sanction of Government on account of a wharf at Tenali, in the Kistna Western division, I have the honour to request that you will be so good as to return the estimate duly sanctioned from the balance of the provision as per item No. 710 of the statement printed with G.O., No. 857 I., dated 11th October 1893.

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated 16th August 1896, No. 1285 K.W.

In reference to your No. II-112 K.S. of 20th July 1896, I have the honour to state that only three wharves have been constructed out of the list of those to be built. These are: (1) Ryves' canal, (2) Pamarru, and (3) Santaravur.

The statement does not give the actual estimated cost of each wharf, but only the approximated cost. The circumstances which point to the necessity for constructing a wharf at Tenali are given in the accompanying extract of a letter from the Collector of Kistna.

"A wharf is much needed, and will hereafter be more so, at Tenali on the Nizampatam canal. As head-quarters of the richest taluk in the district, with a present population of nearly 7,000, which is rapidly growing, and being the centre of an extremely rich tract of country, this town is in need of better accommodation for landing and shipping of goods and passengers," and I may add that there is no doubt that Tenali is increasing in importance; we have lately constructed an office for the Tahsildar there. I return the statement of wharves with the necessary corrections as regards the financial results to be expected from the wharf at Tenali.

No. 171 I.

Note by the Chief Engineer for Irrigation.

In 1887 the necessity for constructing wharves on the Kistna canals for the convenience and facility of traffic was suggested. As the delta completion estimates contained no provision for wharves and the amount available for unforeseen works was not sufficient to meet the cost of their construction, it was thought advisable to carry them out from Provincial funds and credit thereto the wharfage fees to be levied under paragraph 17 of the Navigation Rules in consideration of the facilities afforded to traffic. The revenue from the wharves will, it is anticipated, pay interest on the cost of their construction, the wharves on the Buckingham canal having proved a success. The construction estimate for the Kistna delta will, under G.O., No. 739 I., dated 28th August 1896, be closed on 31st March 1898, and any works not provided for in that estimate may thereafter be sanctioned separately under the rules for open capital sanctions, paragraph 35, chapter V, Volume II of the Public Works Code. It is not, therefore, necessary to draw upon Provincial funds money for expenditure on the wharves required differently from those already constructed. The condition of the Gódavari canals as regards the necessity for wharves is different from that of the Kistna canals, as the chief emporiums of the Gódavari district lie away from the canals. For the Gódavari canals only one wharf at Palkole, on the Narsapur canal, has therefore been proposed, against thirteen wharves on the Kistna canals, as shown in the statement received from the Superintending Engineer, II Circle, with his letter No. 1285 K.S., dated 16th August 1896.

2. The construction of the wharves proposed has hitherto been deferred, pending settlement of the revised Navigation Rules now under consideration. These have been altered with reference to the remarks made by the Honourable the Advocate-General and will shortly be submitted to Government. In the proposed revised rules, the existing rate of one anna a ton of wharfage fees is retained. In his letter quoted above, the Superintending Engineer, II Circle, urges the early construction of a wharf at Tenali, which is one of the wharves proposed on the Kistna canals. It is therefore recommended that the estimate, amounting to Rs. 2,910, for the wharf, be sanctioned from the balance of the provision for item 710 of the statement printed in Proceedings, Madras Government, No. 857 I., dated 11th October 1893, leaving the question of the remaining wharves still to be constructed, to be dealt with separately on receipt of estimates for them.

(Signed) R. R. E. DRAKE-BROCKMAN, Col., R.E.,
Chief Engineer for Irrigation.

19th Sept. 1896.

ORDER—No. 819 I., dated 9th October 1896.

The estimate, amounting to Rs. 2,910, for constructing a wharf at Tenali, in the Kistna Western division, is sanctioned as follows, the amount being met from the balance of the provision for item 710 of the statement printed in Proceedings, Madras Government, No. 857 I., dated 11th October 1893 :—

49. Capital expenditure not charged to Revenue.

Kistna Delta System.

I. Works.

Western Section.

(2) Main Canals and Branches.

Nizampatam Canals.

9. Navigation Works.

Wharf at Tenali.

2. This sanction is registered as No. 112 I. of 1896-97.

3. The scale of establishment proposed for the wharves is approved, and the Superintending Engineers, I and II Circles, will, when necessary, submit proposition statements for the establishment required for the sanction of Government. Estimates for the wharves and establishment quarters still to be constructed, may be submitted as necessity arises.

Note by the Chief Engineer
for Irrigation.

In 1887 the necessity for constructing wharves on the Kistna canals for the convenience and facility of traffic was suggested. As the delta completion estimates contained no provision for wharves and the amount available for unforeseen works was not sufficient to meet the cost of their construction it was thought advisable to carry them out from Provincial funds and credit thereto the wharfage fees to be levied under para 17 of the navigation rules in consideration of the facilities afforded to traffic. The revenue from the wharves will, it is anticipated, pay interest on the cost of their construction, the wharves on the Buckingham canal having proved a success. The construction estimate for the Kistna delta will, under G.O. NO:739. I, dated 28th August 1896, be closed on 31st March 1898, and any works not provided for in the estimate may thereafter be sanctioned separately under the rules for open capital sanctions. para 35, chapter V, volume II of the P.W. Code. It is not, therefore, necessary to draw upon Provincial funds money for expenditure on the wharves required for Kistna canals. Moreover it will not do to deal with the wharves required differently from those already constructed. The condition

condition of the Godavari canals as regards the necessity for wharves is different from that of the Kistna canals, as the chief emporiums of the Godavari Dist: ^{away from} ~~lie out of~~ the canals. For the Godavari canals only one wharf at Pal-kole, on the Nursapore canal, has therefore been proposed, against 13 wharves on the Kistna canals, as shewn in the statement, received from the Supg: Engr: Second circle, with his letter NO: 1285KS, dated 16th August 1896.

2. The construction of the wharves proposed has hitherto been deferred, pending settlement of the revised navigation rules now under consideration. These have been altered with reference to the remarks made by the Honourable, the Advocate General, and will shortly be submitted to Government. In the proposed revised rules the existing rate of one anna a ton, of wharfage fees is retained. In his letter quoted above, the S.E. II circle urges the early construction of a wharf at Tenali, which is one of the wharves proposed on the Kistna canals. It is therefore recommended that the estimate, amounting to Rs 2,910, for the wharf, be sanctioned from the balance of the provision for item 710 of the statement printed in P.M.G. 857. I, dated 11-10-93, leaving the question of the remaining wharves, still to be constructed, to be dealt with separately on receipt of estimates for them.

Enclosure: 1 Sir,

In reference to your V^o $\frac{11}{112}$ of 20th July 1896, I have the honor to state that only three wharves have been constructed out of the list of those to be built. These are:-

- 1 Rhyer canal
- 2 Pamarra
- 3 Santaravou.

The statement does not give the actual estimated cost of each wharf, but only the approximated cost. The circumstances which point to the necessity for constructing a wharf at Tinali are given in the accompanying extract of a letter from the

Collector of District.

A wharf is much needed and
will hereafter be more so, at Tenali
on the Vizampatnam Canal. The head
Quarters of the richest Taluk in the
District, with a present population
of nearly 7,000 which is rapidly grow-
ing and being the centre of an ex-
tremely rich tract of Country, this
Town is in need of better accommodation
for landing and shipping of goods
and passengers; and I may add
that there is no doubt that Tenali
is increasing in importance; we have
lately constructed an office for the
Tahasil dar there. I return the State-
ment of wharves with the necessary
Corrections as regards the financial
results to be reported from the wharf
at Tenali.

I have the honor to be.

Yours most obedt. Servt.
