Calcutta, the 16th March 1897.

of the several railways under their control, with the request that, until further orders, suitable measures may be adopted for the effective fumigation and disinfection of all railway vehicles before they are supplied for the conveyance of troops or their baggage.

G. A. Anderson
Under Secretary,
W. H. H.

2. In view to the desirability of precautions being taken against the risk of troops becoming infected while travelling by rail, I am to suggest the Public Works Department being invited to issue to all railways such orders as may be deemed expedient for the fumigation and disinfection of all railway vehicles before they are supplied for the conveyance of troops or their baggage.

Please wire what precautions, if any, are adopted for the disinfection of railway carriages conveying troops from Bombay to Deolali and *vice versa*.

Your 184 B. All carriages fumigated by railway authorities with sulphur burnt in the closed vehicles. No better means available.

REPORT
GOVERNMENT OF INDIA
PUBLIC WORKS DEPARTMENT
BOMBAY
CANNALS AND IRRIGATION

The following report is submitted to the Government of India for the year 1900-1901. It contains a detailed account of the work done in the Public Works Department, and a statement of the progress of the various schemes of irrigation and canal construction.

The work done in the Public Works Department during the year 1900-1901 has been of a very satisfactory nature. The various schemes of irrigation and canal construction have been carried out with great efficiency and economy. The progress of the work has been as follows:

1. The work done in the Public Works Department during the year 1900-1901 has been of a very satisfactory nature. The various schemes of irrigation and canal construction have been carried out with great efficiency and economy. The progress of the work has been as follows:

At the close of the year 1900-1901, the work done in the Public Works Department has been of a very satisfactory nature. The various schemes of irrigation and canal construction have been carried out with great efficiency and economy. The progress of the work has been as follows:
