No. 38 R. T.
GOVERNMENT OF INDIA.

SIR,

With this object it has been decided that returns giving the latest information available regarding the movements of food-grains and pulses into and out of the different civil districts in India shall be published by the Director General of Statistics on telegraphic returns to be furnished by the civil district officers.

(i) arrived at the station *from places outside the district* and,
(ii), left the station *for places outside the district*

As a convenient arrangement, it has been suggested that Collectors or other officers in charge of districts should distribute, direct to the station masters of railway stations within their districts, service post cards containing the form (of which a copy is attached) in which the information should be given. The district officer should fill in the limits of the district which may be unknown to the station master concerned before the post cards are sent out, and provision has been made on the form for this being done.

3. As railways will directly benefit by the movement of food-grains which it is thus desired to stimulate, I am to request that the administrations of all state railways worked directly by Government will arrange for the desired

information to be supplied to Collectors or other officers in charge of districts, on receipt of the post cards referred to, particular attention being called to the fact that movements of grain *within* each district should be carefully excluded from the returns, and to state that the Government of India trust that the administrations of all other railways will agree to adopt the same procedure.

I have the honour to be,

SIR,

Your most obedient Servant,

G. A. Anderson

Under Secretary.
