O R D E R:- No. 863, DATED 13th MAY 1907.

The Government of India have recently appointed a Committee to investigate the apportionment of the cost of Railway Police between the Railway Companies and the Government. Pending receipt of the orders of the Government of India on the report of this Special Committee, the Government propose to defer passing orders on the questions now raised by the Inspector General of Police. For the present,

ENCLOSURES TO PROCEEDINGS OF / LETTER FROM THE GOVT. OF MADRAS.

No. 863, JUDICIAL, dated the 13th MAY 1907.

Letter- from D. W. G. COWIE, Esquire, Ag. Inspector General of Police,
To - the Chief Secretary to the Government of Madras, Madras
Dated - the 19th April 1907,
No. - R.C.906/Genl.

I have the honour to report that it was brought to my notice that no recovery was being made from the Railway Companies in this Presidency on account of (1) rent of buildings contructed by Government for the use of the Government Railway Police (2) arms and ammunition and (3) stationery and forms supplied to the Railway Police.

2. I, therefore, consulted the Accountant General who was of the opinion that recovery should be made in respect of these items. I also asked the Examiner of Guaranteed Railway Accounts to let me know the practice elsewhere. The Government Examiner of Railway Accounts, Dharwar, in reply to a reference, stated that the practice in his jurisdiction was for buildings to be put up at the cost of the Railway Companies to whom Government paid 3/10ths of 6 % per annum as rent and that charges for arms, ammunition and stationery were divided between Government and the Companies in the usual proportion.

3. The Resolution of the Government of India, Finance and Commerce, No. 5612, dated 13th October 1888, prescribes the recoveries to be effected. Arms, ammunition and stationery, presumably come under the head of "stores". I see no reference therein to buildings but as Government are now paying rent to the Railway Companies for the buildings put up by the latter, I conclude that the converse course should be adopted.

4. I request that Government will be pleased to pass orders sanctioning recovery of cost being made in respect of the three items enumerated in the first paragraph of this letter.

5. As to the rate at which rent should be computed on account of buildings occupied by the Railway Police constructed at Government expense, I would recommend that an uniform rate of 7½ % on the cost of construction should be adopted. This is in accordance with the Government of India's letter No. 232, R.C., dated 8th February 1905,

communicated

communicated with Government Order No. 409, Railway, dated 20th February 1905, determining the rent to be charged for buildings constructed by State Railways for Government servants. This would be simpler than following the procedure indicated in paragraph 1068 ℄ (a) of the Public Works Code. The Railway Companies would be charged with 7/10ths of the rent thus determined.

6. As regards arms and ammunition and stationery, it appears that the best course would be to divide the total cost debitable to the Railways in mileage proportion among the lines concerned.

7. Orders upon paragraphs 5 and 6 of this letter are requested.
