Mr. J. Andrew (Commissioner of Land Revenue).

on the 7th proximo. The Vizianagram Railway District of the said line is 60 miles in length. The Special Deputy Collector has, up to date, been furnished with land plans and schedules for 54 miles. He has completed the measurement and valuation of land for 19 miles and paid compensation for the first 9 miles. The slow progress was due to the initial <sup>in</sup>adequacy of the Deputy Collector's establishment. The Deputy Collector has thus still to measure 35 miles and acquire and pay for 45 miles of land and with the additional establishment sanctioned in G.O.No. 442 Railway dated 7th March 1907, which has just been entertained, he will probably be able to complete the remaining work within a year. The Railway District Engineer of Vizianagram recommends the retention of the Deputy Collector and his establishment for this period and says that it is even possible that land acquisition operations may require to be extended beyond the sixty miles at present included in the Vizianagram District. I therefore request that the Board may be pleased to obtain the sanction of Government for the retention of the Special Deputy Collector and his establishment till the 7th May 1908.
