Under Secretary to the Govt. of India.

Extract, para. 1, from Government of India, Public Works Department, letter No. 2032 G., dated the 30th July 1897, to the Director General of Telegraphs.

In reply to your letter No. * * *, I am directed to state that the orders contained in Public Works Department Resolution No. 398 G., dated 7th February 1895, are applicable to the grant of all local allowances, and that they mean that the allowances are admissible only to officers who have their head-quarters within the tracts for which local allowances are sanctioned, and not to officers merely travelling in those tracts. The continuance or otherwise of local allowances during absences from localities where such allowances are admissible is governed generally by the rules of the Civil Service Regulations (Articles 78 and 300). It may be added that in all cases where the contrary has not been specified, the original intention in sanctioning local allowances for any locality was that they should be admissible only to officers having their head-quarters within such locality, and to this extent the orders conveyed in Public Works Department No. * * *, should be held to have been superseded by the order of 7th February 1895.

Read—the following paper:—

Resolution of the Government of India, Public Works Department (General),
dated Calcutta, 23rd November 1894, Circular No. 2 P.W.

[Transfers of charge of Public Works Divisions and Sub-Divisions.]

Read—Government of India, Public Works Department, Circular No. 20 P.W., dated
23rd October 1889.

Resolution—In paragraph 4 of the circular read above regarding transfers of charge of divisions and sub-divisions, it is laid down that, in the absence of any advice to the contrary, the Examiner of Accounts will assume that the transfer has been conducted with sufficient expedition and will pass full salaries to both officers for the period occupied in carrying out the transfer. The Government of India are now pleased to order that the Superintending Engineer, who, in ordinary course, receives the report of the transfer of charge of a division or sub-division (*vide* Public Works Code, volume II, chapter II, paragraphs 231 and 239), shall, in every case, inform the Examiner of the dates on which the transfer began and ended, and, if he (the Superintending Engineer) considers that the time so taken is not excessive, that full pay for the period may be allowed to the relieving officer as if he were "on duty." If the Superintending Engineer, however, considers the time excessive, the relieving officer must be treated as if he were on leave or on joining time, &c., as the case may be. Full pay is subject to the proviso that no emoluments in the nature of acting allowance can be drawn by two officers at once—*vide* paragraph 3 of Public Works Circular No. 20 of 23rd October 1889.

2. The above rule forms an exception to the rule in article 254 of the Civil Service Regulations, under which an officer begins to draw the full pay of an appointment from the day on which he assumes charge of an office.
