To
The Collector of Madras.

Sir,

In returning the Board's Reference on Government Register No. 1908 dated 1st Instant, forwarded to me with your endorsement Ref. No. 872/G&B of the 8th Idem, I have the honor to ~~report~~ report as follows:-

2. The total extent of land required for the goodshed of the South Indian Railway as per plans and schedules received with the above reference is 4.53 acres of this 0.49 acre at the southern end lies within the demarcated limits of the military zone. As already reported in para 2 of my letter Ref No. 836 / C of the 16th June last the said portion will have to be excluded from the military zone limits before it can be handed over to the Railway Department.

3. Of the remaining area 2.49 acres is in charge of the Harbour Trust Board. There are on the land some cement blocks, the Railway~~y~~ line laid for carrying the blocks to the Harbour, a turntable for weighing carriages and a weighing shed 13'×8' with brick in chunam walls and tiled roof. The Harbour works having been completed, the Harbour Trust Board will probably have no objection to vacate the land. I addressed the Secretary of the Harbour Trust Board on the 19th June last on the subject but have received no reply from him as yet.

4. Out of the remaining extent 0.69 acres stated to be in charge of the Postal Department lies vacant the temporary stables which stood thereon having been removed some time ago. The extent of 0.86 acres shown to be in charge of this Department has , as has been reported in para 4 of my letter of 16th June , quoted in para 2 above, been leased out to the Bank of Madras, which will ~~la~~ have to vacate it at a months notice.

2

5. The value of the land may be taken at Rs. 2000 a ground as already reported by me. At the said rate the value of the entire extent, required by the Railway Department, comes to Rs. 1,64,439.

I have &c.

Signed/. B.H.Chester,

Deputy Collector.

In reply to your letter No. 711 dated 10th March 1898, regarding the acquisition of land on the Madras Beach, I have the honor to state that this railway is prepared to provide the level crossing with guard rails asked for. I do not quite understand what draining is required, but apparently it will be necessary in our own interest and we can do it. I presume of course the land to be drained will lie within railway limits as we could not well carry out work of this kind on land in other occupancy.

Copy to P.M.S. and ask if he now agrees to transfer the land
