BACK PAPERS.

Lineo: 3.

I have the honour to forward
herewith the Collector's P.B.C. No: 2298 M.D.,
dated 22nd January 1899, for your perusal
and kind return and to inform you that
the lands marked C in the enclosed sketch
were originally supplied with water from
a vent in the Surplus weir of the Anuppa-
nady tank, Subsequently when the weir was
remodelled this vent was closed entirely.

The ryots owning lands marked C in the sketch were then put to the necessity of taking water to their fields from a sluice in the supply channel of Anuppanady tank marked D in the sketch. To this procedure the owners of the fields marked A & B objected as the channel leading from the sluice lies entirely in their lands and is intended for supplying their fields above and

103 mD

and not fields lower down. I proposed the old Source of Supply and Sanctioned an estimate to the amount of Rs. 22- for opening a vent in the body of the weir in Anuppanady Tank. As soon as the work was completed, the ryots of Anuppanady demolished the vent newly constructed vide Mr. Rebullo's letter No. 205, dated 16th October 1899, herein enclosed. The Collector writes to say that the persons who demolished the vent in the palingulak of the Anuppanady tank, were found to be private individuals; the D.P.W. might therefore prosecute the offenders.

I request therefore that you will be good enough to obtain Sanctions of Government for prosecuting the offenders at the cost of Government.

No. 1686 M.S. of 13 November/99. Enclosures-3.

The prosecution of the offenders is sanctioned under G.O. No. 2050 W., dated 7 July 1888. The Executive Engineer is requested to engage a vakil,

through the District Magistrate, conduct the case and report the result.

2. The enclosures of the Executive Engineer's letter are herewith returned with the exception of the sketch map, which will be forwarded to the Chief Engineer for his information and return.

(Sd) G. V. Boddy Lt. Col. R. L.

Supg. Engineer, 6 Circle.

Enclosure-1
one sketch map.
No. 1687 M.S. of 13 November 1899
9/11-
