Copy of Superintending Engineer's letter No 9 d 23-11-99 Camp Bapatla to the Executive Engineer Nellore Division.

I have already written you demi-officially on 20th Inst. that the Nellore Talek Supply Channel work is now to be proceeded with and that your letter to the Collector ~ Nellore stopping the acquisition of land for the channel should be withdrawn and that he should be requested to proceed acquiring the land.

Please wire direct to the Chief Engineer for Irrigation the amount you will require for works on this channel during the current official year.

Please expedite the revised estimates for this channel on the new line which you have surveyed and which was approved of by me when in Nellore last month

I

I will be camped at this place until the end of this month. If there are points in connection with this work which you would like to discuss or which require settlement you can come here for the purpose bringing the necessary plans + papers.

I have the honor to be,
Sir,

Copy of C No 1405 S.E. d 22-11-99
from the Executive Engineer Dn
to the Superintending Engineer
Second Circle Bezwada.

I have the honor to forward herewith a copy of a D.O. dated 16-11-99 from the Chief Engineer for irrigation and a copy of my No 930 C dated 24-10-99 to the Collector therein referred to and to report as follows:-

I showed you at Nellore your office telegram dated 19th October 1899 in which I was asked to consult you and to wire what expenditure was obligatory on the Penner River Canals System. You understood the telegram to mean that any expenditure which is not obligatory is not likely to be sanctioned and that I should state in reply that no expenditure was

obligatory

obligatory on the Nellore Tank Supply Channel in as much the work had not yet been started.

2. I represented to you that I had already written to the Collector to acquire the lands and that I had arranged to collect materials for the head Sluice. you replied that I should write to the Collector that the lands need not be acquired and that I should countermand the orders for the collection of materials. The letter to the Collector was the outcome of these orders.

3 I now request to be informed whether I should write again to the Collector cancelling my previous letter and asking him to acquire the lands urgently.

4 — I have written a D.O. to the Chief Engineer explaining to him the circumstances under which the letter to the Collector was written.

Enclosures 2.
1 E E's No 1405 S E of 22-11-99
1 S. E's No 9 of 23-11-99

To

The Chief Engineer

for Irrigation, Madras

Sir,

I have the honor to forward herewith a Copy of the Correspondence between myself and the Superintending Engineer Second circle re the Nellore Tank Supply Channel for your information.

2. The Superintending Engineer has asked me to wire to you direct the amount that I would require for expenditure on the Nellore Tank Supply Channel during this official year. As I

I cannot express everything in a telegram, I have written this letter.

3 In reply to a telegram from your Office, I sent a telegram to the Superintending Engineer that an expenditure of Rs 40,000 was obligatory on works only on the Penner Irrigation System under 49 Capital exclusive of expenditure in previous years on Sangam to be written back from 43. This referred only to expenditure on the Pyderu Scheme as we considered that no expenditure was obligatory on the Nellore Tank Supply Channel as the work was not commenced.

4 — As it is now proposed to commence the work, I require the Sum of Rs 19,985 for expenditure on works alone which is the current year's grant on the work. If the whole of this amount cannot be given I require a Sum of Rs 5,000 for payment of Compensation.

5 I have now withdrawn my letter No 9309 of 23-10-99 to the Collector of Nellore and asked him to acquire the lands urgently. It is very likely that the Compensation for land may be paid this Official year.

6 Your D. O. of the 22nd Instant states that you do not know what the Government of India means and that we must try and keep ~~as much~~ enough money for payment of land or arrange for transfer of that amount. The grant applied for works done on the Pyderu for this year is Rs 40,000. It will then be Rs 49200 inclusive of Establishment.

7 If I have to transfer the amount required for the Compensation from the grant applied

applied for the Pyderu Works, the grant available for expenditure on the latter will be Rs 44,200 inclusive of Establishment or Rs 35935 on works alone.

8. Against this grant there is already an expenditure of Rs 27522 up to the end of October and then a liability of about Rs 3000. The amount available for expenditure before the end of the Official year will therefore be Rs 5413, which is quite insufficient.

9. It will, therefore, be necessary to transfer funds from other divisions if possible. If this course is not possible and if no additional funds are sanctioned, I shall have to restrict expenditure on the Pyderu Works.

10 I, therefore, request the favor of early orders on the subject. I have stopped the Collection of materials and the commencement of the earthwork till receipt of final orders.

I have the honor to be,

Sir,

Your most obdt servant

No. 319 I.

Forwarded to the Chief Engineer for Irrigation with reference to paragraph 2 of G.O., No. 703 I., dated 16th August 1899, for sanction if approved.

(Signed) W. M. ELLIS, Major, R.E.,
Suptg. Engineer, II Circle.

14th September 1899.

From Major W. M. ELLIS, R.E., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated Bezwada, 19th September 1899, No. 327 I.

In continuation of this office No. 319 I., dated 14th September 1899, forwarding an application for additional funds required under 49. Capital for the work "Diverting the surplus water of the Kanigiri reservoir into Pyderu," I have the honour to bring to your notice that there was an outlay of Rs. 17,230 incurred on this work under 43. Minor Works and Navigation during 1898–99, and this has to be written back to 49. Capital agreeably to G.O., No. 703 I., dated 16th August 1899.

If this sum is to be debited to the current year's allotments under 49 and credited to 43, another application for funds under 49 for this purpose will be necessary and a corresponding surrender under 43.

Instructions on this point are requested.

Office-note from the Examiner, Public Works Accounts, dated Madras, 21st September 1899, No. 1137 A./A.

[G.O., No. 703 I., dated 16th August 1899.]

If, as I suppose, it is the intention of the Government of India order not to disturb the incidence of charge under 43. Minor Works and Navigation in previous year, *i.e.*, up to 31st March 1899, sanctions accorded to works as per annexed statement, which remained incomplete on 1st April 1899, will have to be cancelled and resanctioned under 49. Capital.

—	1897–98.	1898–99.	Total.
	RS.	RS.	RS.
Works	6,234	17,893	24,127
Establishment ..	1,434	4,115	5,549
Tools and plant ..	93	..	93
Total ..	7,761	22,008	29,769

2. If, on the other hand, it is intended that the past expenditure should also be written back to 49, it will then be necessary to apply to India for additional funds under 49 to the extent of Rs. 24,127, or Rs. 29,769 including establishment and tools and plant, as per margin, to cover the write-back to 49. Capital.

Enclosure.

Note by the Chief Engineer for Irrigation.

With reference to G.O., No. 703 I., dated 16th August 1899, communicating letter from the Government of India sanctioning the amalgamation of the accounts of the Penner and Sangam anicut systems and intimating that the current year's expenditure on the combined project may be charged to "49. Irrigation," the Superintending Engineer, II Circle, applies for an additional grant of Rs. 49,200, including the charge for establishment, under "49. Capital expenditure not charged to Revenue," for expenditure on the system during the current year in lieu of the budget grant of Rs. 49,200 for the Sangam anicut system under, "Provincial, 43. Minor Works and Navigation," which has been surrendered and appropriated to meet other demands.

2. The expenditure incurred on the Sangam anicut system on Capital account during the past two years was, under the orders of the Government of India charged to "Provincial, 43. Minor Works and Navigation." The Examiner of Public Works Accounts states that it is not clear from the Government of India letter referred to in paragraph 1 whether it is the intention that this outlay should be written back to "49. Capital expenditure not charged to Revenue" and that, if it is intended that the write-back should be made in the current year, a further grant of Rs. 29,769 * would be necessary. It is recommended that the Government of India be requested to sanction an additional grant of Rs. 78,969 if it considers that the write-back should be made during the current year,

3. The Superintending Engineer, I Circle, having reported that an additional grant of Rs. 9,274, including the charge for establishment, is required for the Rushikulya project under "35. Construction of Protective Irrigation Works" for expenditure on certain sanctioned works, the Government of India may, it is also recommended, be requested to sanction an additional assignment of say Rs. 9,300.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

29th September 1899.

Order—No. 919 I., dated 26th October 1899.

The following deferred telegram will be sent :—

To the Joint Secretary to the Government of India, Public Works Department, Irrigation Branch.

"Your No. 738 C.W.I., 20th July last, paragraph 2. Additional grant Rs. 78,969 required for Penner river canals under 49 including Rs. 29,769 for write-back of outlay during past two years on Sangam system under 43. Under 35. Rushikulya project additional grant Rs. 9,300 required for expenditure on sanctioned works. Please wire sanction. Usual application follows."

2. Ordered that a copy of these Proceedings be forwarded to the Government of India for information.

[Here enter No. 920 I., dated 26th October 1899.]

(True Extract.)

(Signed) W. HUGHES,
Joint Secy. to Government,
Irrigation Branch.

To the Chief Engineer for Irrigation.
" Superintending Engineers, I and II Circles.
" Examiner of Public Works Accounts.

Exd. A. Rungasawmy Aiyangar.

Appendix to G.O., No. 919 I., dated 26th October 1899.

STATEMENT to accompany application for additional grants of Rs. 78,969 under "49. Capital expenditure not charged to Revenue" for the Penner river canals and Rs. 9,300 under "35. Construction of Protective Irrigation Works" for the Rushikulya project for expenditure during 1899–1900.

Amount of expenditure in the year for which sanction is asked.	Major and minor heads under which expenditure will fall with the amount of sanctioned grants under each.	Probable expenditure in the whole year under the grants mentioned in column 2, if the expenditure in column 1 is sanctioned.	Major and minor heads under which it is proposed to reduce the grants with the sanctioned grants under each.	Probable expenditure in the year under the heads mentioned in column 4.	Amounts by which it is proposed to reduce the grants under the heads mentioned in column 4.	Ex-planation if no reappropriation is considered possible; in such cases, the urgency and necessity for the outlay must also be explained.
1	2	3	4	5	6	7
RS. 78,969	49. Capital expenditure not charged to Revenue, Penner river canals, Existing grant Rs. 24,581.	RS. 1,03,550	*Nil.*	*Nil.*	*Nil.*	Of the additional grant of Rs. 78,969 shown in column 1, Rs. 49,200 is required for expenditure on the system during the current year in lieu of the budget grant of Rs. 49,200 under "Provincial, 43. Minor Works and Navigation" which has been surrendered with reference to letter No. 738 C.W.I., dated 20th July 1899, from the Government of India intimating that the expenditure during the current year on the system may be charged to "49. Irrigation." The balance of the demand is required to cover write-back of outlay incurred on the Sangam anicut system during the past two years under "43. Minor Works and Navigation," and may be sanctioned if it is intended that the write-back should be made during the current year.
9,300	35. Construction of Protective Irrigation Works, Rushikulya project, existing grant, Rupees 61,000.	70,300	*Nil.*	*Nil.*	*Nil.*	Required for expenditure on certain sanctioned works.
