Account.

READ—the following papers:—

From the Superintending Engineer, II Circle, dated 5th October 1899, No. 347 I.

ENCLOSURE

ENCLOSURE.
REPORT to accompany the estimate for improvements to Palacodu drain.

Amount of estimate	Rs.
drain is at present not capable of discharging 1000 cusecs of water	2,360

The drain is at present not capable of discharging the rainfall of its drainage area (14 square miles) quickly enough to prevent submersion of crops.

It will be seen from the hydraulic details that the least effective bottom width is 15 feet at head and 22 feet at its mouth, where it enters the Komaravolu drain, and the estimate provides for widening the channel accordingly.

25th August 1899.

(Signed) J. S. WILSON,
Ex. Engr., Kistna Eastern Division.

No. 214 I.

Note by the Chief Engineer for Irrigation.

The Superintending Engineer, II Circle, submits an estimate, amounting to Rs. 2,360, for improving the Palacodu drain, in the Kistna Eastern delta, to prevent submersion of crops. The estimate may be sanctioned.

1st November 1899.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

ORDER—No. 1018 I., dated 30th November 1899.

The following estimate is sanctioned:—

Capital expenditure not charged to Revenue.

49. Irrigation.

Kistna delta system.

Eastern section.

Open capital account.

4. Drainage and protective works.

4. Earthwork.

Unremunerative work.

Unremunerative work.
Improving the Palacodu drain.

Estimate—

[illegible]

2. This sanction is registered as No. 92 I. of 1899-1900 and will expire on the 31st March 1901.

3. Ordered that a copy of these proceedings be forwarded to the Government of India for information.
