Letter from the collector of Chingleput to the Executive Engineer
Chingleput Division, No. 1384 of 1899 dated 18th August 1899

Adverting to your letter No. $\frac{140}{C.O.}$ dated 7th August 1899 stating that an estimate amounting to Rs 450 for repairing the Head sluice and filling in the scour holes and breaches in the Tinna more Tank supply channel has been sanctioned and that the work has been started in anticipation of the recovery of a contribution from the Shrotriendars of Tinnanore and Amrambatta. I have the honour to inform you that orders have been issued to the Tahsildar of Saidapet to recover the contribution, which according to the old accounts traced out and filed in the suit now under enquiry in the District Court, should bear a proportion of $5\frac{3}{4}$ parts in the case of the Shrotriendars of Tinnanore and 1 part in that of the Shrotriendars of Amrambatta to every $2\frac{3}{4}$ parts of the cost to be paid by Government and according to this proportion contribution amounts to Rs 272 in the case of Tinnanore and Rs 47 in the case of Amrambatta. In the event of the Shrotriendars refusing to

pay

pay the contribution the Board will be addressed and a suit instituted for the recovery of the amount. Meanwhile I request I may be furnished with a copy of the estimate of the repairs now to be executed in the case of the supply channel, as it is likely that the Chotriemdas may ask to be allowed to see it.

for Irrigation

SIR,

Enclosures.

With reference to paragraph 79, Chapter IX, Vol. I, I have the honour to request that sanction of Government may be obtained for the execution of the work of repairing the head sluice and filling in scour holes and breaches in Timanore tank No. 171 by this Department.

An Estimate of Rs. 450 has been sanctioned for the work which has been put in hand in anticipation of sanction at the request of the Collector, the work being urgent.

I have the honour to be,
Sir,
your most obedt. servant.
