No 2462 T. dated 22^d June/99
Enc. Enki. plan & papers.

Note by $\frac{89}{7}$

An estimate of Rs. 3570 for repairing and improving the Mambakkam kissa tank in Trivellur Taluk was prepared by No 3 Party, J.A.S. As the tank irrigates 63 acres of Govt lands in Vadatalam village and 509 acres in the Kalahasti Zaminidari, the estimate was forwarded with this Mee No 1332 T, d/13 June 99, to the Collector of Chingleput with a request to be informed if the Zaminidar is liable to pay the proportionate share of the cost of the proposed repairs. In reply the Collector forwarded a letter from the Dy. Collector, Trivallur d/13 June 99, stating that the cost of the work may, if possible, be reduced and that the contribution would be paid.

by two equal instalments.
The Supy Engineer, S. Circle,
was thereupon requested
to report what reductions
in the estimate were
feasible, & it was suggested
that the amount for earth
work could be reduced
and the provision made
for two new masonry
sluices omitted, leaving
their construction to the
option of the Zemindar.

The Supy Engineer in the
his letter No 344 S.D. dated
29th August 1899, submitted a
revised estimate for Rs. 2180
which was forwarded to the
Collector of Chingleput to ascertain
and report the dates of pay-
ment of the contribution due
by the Kalahasti Zemindar.
The contribution amounts
to Rs. 1940 and the Collector
states that the Manager
of the Estate has promised
to pay the amount in two
equal instalments,

one at the end of June 1900
& the other at the end of
June 1901.

As the provision for masonry
sluices originally proposed
has been omitted, it will
be necessary to issue
strict orders to close the
cuts at ^{these} sites and
not reopen them at the
will of the Zemindar & Co.
as otherwise the safety of
the tank will be endangered
the cultivation being
carried on under the existing
three sluices.

It is recommended that
the execution of the work
be sanctioned under para
of Code I, IX.
