PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

The Hon'ble Mr. J. STURROCK, I.C.S.
A. W. B. HIGGENS Esq., I.C.S.

RESOLUTION—No. 258, dated 24th October 1899.

RESOLUTION—No. 25, dated 24th October 1899.

The Board understands from the Superintendent of Survey that considerable difficulty has been experienced and much extra expense caused by the failure of land acquisition officers to take proper steps to connect the land plans and sketches prepared in the course of acquisition proceedings with the existing village records. It has therefore become necessary to amplify the general directions given in paragraph 18 of Standing Order No. 11 as last issued in Board's Proceedings, No. 211, dated 9th September 1899. Subject to the approval of Government, the position of the two last sentences of that paragraph will accordingly be transposed and the following additional remarks will be inserted at the end:—

“When more and field plans, it will be necessary for

"To secure the due correction of the village maps and field plans, it will be necessary for the Collector during the course of the acquisition proceedings to prepare measurement sketches indicating the precise position and extent of the land acquired and connecting the boundaries thereof with the existing revenue survey marks; these sketches should be drawn to scale and prepared in duplicate, one copy being supplied to the Revenue Divisional Officer concerned whose duty it is to see that the necessary corrections are carried out in the village records, and the other being forwarded to the Superintendent of survey in order to enable that officer to bring up to date the records of the Central Survey office.

NOTE.—Where the sketch or land plan furnished under paragraph 7 *supra* is duly connected with the survey records, there will ordinarily be no necessity for the Collector to prepare separate measurement sketches; it will suffice if he indicates clearly and precisely the nature of the alterations made in the course of his proceedings."
