GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Railway.

Read the following papers:—

G.O., No. 1557 Ry., dated 17th December 1898.

From—The Agent, South Indian Railway.
To—The Consulting Engineer for Railways, Madras.
Dated—Trichinopoly, 30th August 1899, No. 873.

With reference to the sanction accorded in G.O., No. 1557 Ry. of 17th December 1898, to an estimate of Rs. 21,982 for providing seven additional lathes to the equipment of the Locomotive Workshops at Negapatam, I have the honour to inform you that, in consequence of the machines having cost more in England than anticipated, the total expenditure is now estimated at Rs. 29,634, and I therefore forward, for sanction, a revised estimate, No. 2153, for the work.

Attached to the estimate will be found a memorandum showing the differences between the sanctioned and revised estimates. The approval of the Board of Directors to the increased expenditure will be applied for and communicated in due course.

From—The Consulting Engineer for Railways, Madras.
To—The Agent, South Indian Railway.
Dated—Madras, 15th September 1899, No. 2895.

With reference to your letter No. 873, dated 30th August 1899, submitting for sanction a revised estimate for providing seven additional lathes to the equipment of the Locomotive Workshops at Negapatam, I have the honour to state that the approval of your Board to the estimate is awaited.

Railway.

Read the following paper:—

From—The Agent, South Indian Railway.
To—The Consulting Engineer for Railways, Madras.
Dated—Trichinopoly, 13th December 1898, No. 1118.

Forwarding for sanction an estimate, amounting to Rs. 21,982, chargeable to Capital, for providing seven additional lathes to the equipment of the locomotive workshops at Negapatam.

ENCLOSURES.

Extract from letter from—The Board of Directors, South Indian Railway.
To—The Agent, South Indian Railway.
Dated—London, 1st July 1898, No. 214.

Failures of Wagon Axles.

In view of these recommendations, in which the Board concur, the Locomotive Superintendent should be directed to indent half-yearly for as many new axles of the larger type as he is able to replace in the following half-year, and, if his present appliances are not sufficient to enable him to fit the whole of the stock with the stronger axle in a reasonable time Mr. Crighton should report what further machinery he requires to expedite the change being made. The Traffic Manager should also be called upon to report whether, with the reduction in the paying load of the wagons, consequent upon carrying out the recommendations of the Consulting Engineer, or upon giving effect to such restrictions as may be imposed by Government, a larger stock of wagons will be required to enable him to handle the traffic efficiently, or how otherwise he proposes to deal with the exigencies of the case.

Extract from letter from—The Agent, South Indian Railway.
To—The Board of Directors, South Indian Railway.
Dated—Trichinopoly, 28th September 1898, No. 605.

Additional Machinery for the Negapatam Workshops.

With reference to the concluding portion of the paragraph in your letter No. 214 of 1st July 1898, regarding the replacement of wagon axles, I send in the packet the duplicate of an estimate, amounting to Rs. 21,982, chargeable to Capital, submitted by the Locomotive Superintendent for seven additional lathes for the locomotive and carriage and wagon workshops at Negapatam, and request the sanction of the Board to the proposed expenditure.

In connection herewith I also forward for information copies of correspondence (as detailed in the list of enclosures) which have passed between the Locomotive Superintendent and myself with reference to this estimate.

Extract from letter from—The Board of Directors, South Indian Railway.
To—The Agent, South Indian Railway.
Dated—London, 4th November 1898, No. 218.

Additional Machinery for the Negapatam Workshops.

Copy of the paragraph under this head in your No. 605, together with the correspondence enclosed therewith were forwarded to Sir George Bruce with a request that he would advise the Board upon the question raised. In his report, dated 20th (October copy enclosed), Sir George recommends that the whole of the seven lathes estimated to cost Rs. 21,982 should be provided in accordance with the request of the Locomotive Superintendent endorsed by yourself. The proposed expenditure is therefore sanctioned and the Board desire that an indent should be sent home with the least possible delay, it being important to lose no time in replacing all the weak axles now running by those of the new muster.

ORDER—No. 1557 Ry., dated 17th December 1898.

The estimate, amounting to Rs. 21,982, chargeable to Capital, for providing seven additional lathes to the equipment of the locomotive workshops at Negapatam, is sanctioned.

2. This sanction has been registered as No. 32 Ry. of 1898-99.
