WATER SUPPLY AT CHINGLEPUT JUNCTION.

In your letter No. 218 dated 4th November, 1898, the approval of the Board of Directors was communicated to an amount of Rs. 6,414 being provided for the watering arrangements at Chingleput Junction, and I now forward for the approval of the Board a detailed estimate for the work in question amounting to Rs. 5,014, chargeable to Capital.

The decrease in amount is due to it being found unnecessary to have a stand pipe.

Enclosure

Estimate for the watering arrangements at Chingleput.

BUDGET ESTIMATE, 1899-1900,
LIST OF WORKS ESTIMATED TO COST Rs. 5,000 EACH AND UPWARDS.

I have placed in the packet a List of Works estimated to cost Rs. 5,000 each and upwards, for the consideration of the Board of Directors and for favor of their sanction to the items therein mentioned being included in the Budget Estimate for 1899-1900. I consider it desirable that provision be made for these works in the Budget.

Enclosure

(2) Watering arrangements at Chingleput Junction.

6,414

The difficulty which has been long experienced of obtaining a supply of good water at this station has been overcome by obtaining permission to draw water from a tank situated within the Fort, and sanction is requested to the proposed expenditure for laying the necessary piping between this tank and the Railway Tank House, and providing a Pump and Stand Pipe.

EXAMINER'S REPLY.

If the work is temporary and is to be subsequently superseded by permanent arrangements, it is usual to debit the former to Revenue and the whole cost of the latter to Capital. If not temporary, and there is nothing in the correspondence to show that it is, it is not understood how a credit arises for a pump, pipes etc. - Please see note in red ink on the Abstract.

As the work has been approved by the Board, the remarks (in black ink) on the abstract require
