Working time table(s)	37

WORD CODE

FOR

INDIAN RAILWAY TELEGRAMS.

INTRODUCTORY.

THIS Code has been prepared principally with the object of reducing the cost of routine telegrams and relieving the telegraph wires and staff of a great deal of unnecessary work and is intended primarily for use in telegrams on routine matters issuing from the Government of India in the Public Works Department, the Accountant General, Public Works Department, and the Directors, Railway Construction and Traffic, and sent to officers of railways under their control. It also embodies existing codes authorized for use on the Government Telegraph lines, and also certain letter codes in use on some railways which appear likely to be useful, and are therefore suggested for adoption on other lines wherever they may be found convenient. Its use is not in any way intended to secure secrecy.

2. With a view to reducing the bulk of the code, the section relating to periodical returns has been recast. All returns for which experience has shown that telegraphic reminders are not required have now been omitted and phrases which are applicable to a large number of returns have been thrown into a separate section and alphabetically arranged independently of the names of the returns. Advantage has also been taken of this opportunity to introduce into the code certain miscellaneous expressions and phrases generally used in connection with the Capital and Revenue Accounts, the want of which has been generally felt. For convenience of reference the lists have been kept separate, but the phrases in the several lists and the code words throughout have been alphabetically arranged.

3. It should be clearly understood that it is not intended that this code should be used in any case in which it is desired that the telegram should be delivered out of office hours at an officer's private residence, or to an official on tour or absent from his office from any other cause. Neither is its use at any time to be considered in any sense obligatory, but it is devised simply to avoid unnecessary labour where found suitable.

4. Offices using the code are invited to communicate to the Director of Railway Traffic any phrases of frequent recurrence in their official telegrams, for which they would wish code words to be inserted. The Director of Railway Traffic on approving such phrases will allot code words and circulate them, as far as possible, to other users of the code.

5. The code words used are of not more than ten letters each, and have been taken from the English language, though certain foreign words, which may through general usage be considered as adopted into that language, have also been employed. In selecting the words, endeavour has been made to avoid, as far as possible, ambiguities likely to arise through the use of the Morse signals.

The following table, however, showing what letters are liable, when rendered in Morse telegraphic symbols, to be mistaken for other letters, is given for the purpose of facilitating the detection of errors:—

The letter	Consists of symbols identical with, and liable to be misread for, the following combinations, and *vice versâ*.	The letter	Consists of symbols identical with, and liable to be misread for, the following combinations and *vice versâ*.
A	ET.	N	TE.
B	TS, TIE, TEI, NI, NEE, DE.	O	T, TM.
C	TR, TEN, TETE, NN, NTE, KE.	P	EG, EME, ETTE, AN, ATE, WE.
D	TEE, TI, NE.	Q	TK, TNT, TTA, MA, MET, GT.
E	.....	R	EN, ETE, AE.
F	EEN, ER, EAE, IN, ITE, UE.	S	EI, IE.
G	TN, TTE, ME.	T	.....
H	ES, II, SE, IEE, EEI, EIE.	U	EA, EET, IT.
I	EE.	V	EU, EEA, EIT, IA, IET, ST.
J	EO, EMT, ETM, AM, ATT, WT.	W	EM, ETT, AT.
K	TA, TET, NT.	X	TU, TIT, TEA, NET, NA, DT.
L	ED, ENE, ETI, ETEE, AI, AEE, RE.	Y	TW, TAT, TEM, TETT, NM, NTT, KT.
M	TT.	Z	TD, TTI, TTEE, MI, MEE, GE.

Thus 'Queen' and 'Quite,' 'Palette' and 'palate,' 'Edwin' and 'Letter' (or 'Later') are indistinguishable from each other except by the *spacing* of the Morse symbols.

6. To save refinements in printing, alternative readings have not always been given, but in all cases it is presumed that such changes as 'I' for 'we,' 'he' or 'him' for 'they' or 'them,' 'in' for 'at,' and others of a similar nature will be made by the transcriber as his intelligence and the obvious requirements of the context may direct.

In the same way, when the context requires it, portions of the phrases which are obviously superfluous, must be disregarded, and on the other hand, the omission of conjunctive and unimportant words must be supplied when evidently necessary. Thus, "Referring to your letter numbered and dated as follows: 1752, 14th February last, 1915, 20th March last," should be read "Referring to your letters No. 1752, dated 14th February last, and No. 1915, dated 20th March last."

7. The words inserted within parenthesis may be included or excluded according to the requirements of each case.

8. The following rules, extracted from the Telegraph Department Traffic Code, are reprinted for information:

Chapter II, Article 31.—

31. Mode of counting.—The text of a telegram is counted first, and the mark || put after every 64 words and groups to facilitate checking the number during transmission (Art 111). A cross must be put against all words or groups of figures, which each count as two, and a double cross against those, which each count as three or more.

II. For general rules for counting, see the *Telegraph Guide.* Remember that:—

(*a*) Figures are counted by groups, 5 figures or less to a group: each group is charged for separately: thus, in—

1 2 3 4 5 6 7 8 9
Price is 25 less 5 per cent. for cash.

although there are only 3 figures, two words are charged for, as there are two groups.

(*b*) Such combinations of letters not forming words, as are admissible under the rules in the *Telegraph Guide,* are counted at the rate of one letter as a word, if each letter is isolated, and by groups of five like figures, if the letters are not isolated. By an isolated letter is meant one, which stands alone or is separated from those, which precede or follow, by signs of punctuation. Thus—

1 2 3 4 5 6 & 7
Send cases marked KCB and PRXLNT.

contains seven words; but

1 2 3 4 5 6 7 8 9 10 11
Shipped 400 bales F. X. L. 53 chests A. L. G.

contains 11 words.

(*c*) When letters and figures occur together, they must be charged for separately under the above rules. Letters affixed to figures to denote ordinal numbers are, however, each counted as a figure. Examples:—

1 2 3 4 5 6 7 8 9
Send letter No. 127 B., dated 11th March 1863.

is 9 words, and

1 2 3 4 5 6 7 & 8 9
Wing 11th Regiment leaves by 10-15 A.M. train.

is also 9 words, because the letters A. M. are written separately, and not as *Am* or *am* (see *Telegraph Guide*).

(*d*) Decimal points and commas used with figures count each as a figure. An oblique or horizontal bar used with figures alone counts as a figure; if with letters alone, it counts as a letter; if with figures and letters, it counts as a figure.

(*e*) The pair of brackets or signs which enclose a parenthesis of any sort always count as one word for the pair. Thus (*bad accounts*) is three words and (23) counts as two words. The same holds good for the inverted commas which precede and follow a word or passage or group of letters or figures. Thus, all the following count as two words each:—"*Parenthesis,*" "*B*", "*23.*"

Chapter II, Article 32, (IV).—When there is a doubt whether a compound English word is admissible as one word, any standard English dictionary will generally decide the point; otherwise the sender should have the benefit of the doubt. Combinations of words obviously contrary to the usage of the language cannot be admitted as single words.

Mail Report Code. (Art. 97, Telegraph Department Traffic Code.)

II.—TRAIN CODE (MAIL LEAVES BY).

Passenger train this morning	Baccarat.	Passenger train to-morrow morning	Captured.
Mail „ „ „	Beetroot.	Mail „ „ „	Catching.
Passenger „ to-day	Blessing	Passenger „ „	Cheerful.
Mail „ „	Broiling.	Mail „ „	Churlish.
Special „ „	Boathook.*	Passenger „ „ evening	Clincher.
Passenger „ this evening	Bucktrap.	Mail „ „ „	Complain.
Mail „ „ „	Breasted.	Special to-morrow	Clavicle.*

* The hour at which the special leaves should be given. The Time Code should be used for this.

III.—ROUTE CODE (FOR).

All places served by—	
Route A	Darksome.
„ B	Deadness.
„ C	Debasing.
„ D	Decipher.
„ E	Definite.
„ F	Delicate.
„ G	Desolate.
„ H	Diminish.

N.B.—Routes A to D are served from Bombay by the G. I. P., South-East line.
„ E and F „ „ „ „ „ G. I. P., North-East line.
Route G is „ „ „ „ B., B. and C. I. railway.
„ H „ „ „ „ „ B. I. S. N. steamer.

For further information regarding the routes, see Telegraph Department Traffic Code, Appendix VIII A.

Syllable Cipher Code for numbers of quantities or specified articles.

The following system of telegraphing numbers, quantities and values of certain specified articles or things will often be found useful and would seem well suited for certain requirements of the Traffic Department of a railway. It could be conveniently used for yard and stock reports, the first column being filled in with suitable references.

Each syllable represents a figure (or number) and a combination of syllables represents the same number as if figures had been written in place of syllables, and these numbers refer to the subject entered in the first column. Not more than five syllables should be combined for one word.

To represent, *say*—	1	2	3	4	5	6	7	8	9	0	Examples.
Numerals	Ba	Ne	Ci	Ro	Du	Ta	Fe	Xi	Go	Zu	1,19,000 . . Babago Zuzuzu.

General Example;—Cusaabuduz Mokusu Vaguvo *means* Your telegram No. 56. 150 maunds of wheat valued at Rs. 950 at Rs. 6-5-[illegible] per maund.

Appendix to the Word Code for Indian railway telegrams, Part I (third Edition).

No. 0078 R. Stat., dated 11th March 1896.

From—The Secretary to the Government of India, Public Works Department.

To—The Joint Secretary to the Government of Madras, Public Works Department, Railway Branch, the Secretary to the Government of Bombay, Public Works Department, Railway Branch, the Secretary to the Government of Bengal, Public Works Department, the Chief Commissioners of Burma and Assam, the Resident at Hyderabad, the Agent to the Governor General for Rajputana, the Director General of Railways, the Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow, and Assam.

With the view of obtaining the latest available audited figures for the statements of approximate gross earnings of Indian railways which are published weekly in the *Gazette of India*, the Government of India has had under consideration the question of the inclusion of the *total earnings to date* for the *current* official year and for the *current* calendar half-year in the weekly telegraphic reports which, in response to the Government of India circular No. X Railway of the 24th July 1891, are at present received from the several railway administrations.

2. By dispensing with certain code words which are telegraphed under the existing arrangement, and giving the earnings for the week and the totals to date in round numbers only, coupled with strict adherence to a recognised and invariable order in the arrangement of the figures to be signalled, the additional information which it is desired to obtain may be included in the weekly telegraphic reports without increasing their present cost.

For example, the telegraphic reports under the present arrangements run thus—

Words charged for.	As signalled.	Meaning.
1	Indiana	East Indian railway.
1	Carbuncle	Approximate gross earnings for week ending.
1	Abide	1st February last.
3	1196940	Rupees 11,96,940.
1	Carbureted	Mean mileage worked.
2	1733	1,733.
1	Cardigan	Average receipts per mile per week.
1	691	Rupees 691.
Total 11		

Under the proposed arrangement the telegram, including the additional figures desired, would run thus—

Words charged for.	As signalled.	Meaning.
1	Indiana	East Indian railway.
1	Abide	Approximate gross earnings for week ending 1st February last.
2	1197	Rupees 11,97,000.
2	1733	Mean mileage worked 1,733.
1	691	Average receipts per mile per week, rupees 691.
2	45401	Earnings from commencement of current *official* year to date, rupees 4,54,01,000.
2	5209	Earnings from commencement of current *calendar* half-year to date, rupees 52,09,000.
Total 11 as at present.		

3. The object being to obtain as accurate information as possible without additional cost, and the unit group for telegraphic purposes being one of three figures, it is desired that amounts of less than ₹1,00,000, whether weekly earnings or totals to date, may be given to the nearest hundreds and amounts in excess of ₹1,00,000 to the nearest thousands.

4. It will, however, be absolutely necessary under this proposal that the information in the telegrams shall be invariably given in the order shown in the last clause of paragraph 2 above, as any departure therefrom would render the messages unintelligible and confusing in the absence of code words indicating what the figures imply.

5. With messages clearly written and the figures correctly grouped and spaced, the Government of India are advised that the probabilities of mutilation in transit, even of a succession of groups of figures without the interposition of code words, are very remote, as the rules provide for special care in the transmission of cypher telegrams.

6. As the amplification of the weekly telegraphic reports in the manner indicated in the last clause of paragraph 2 of this letter will, without any additional cost, ensure the publication of the latest audited figures in the statements of the approximate gross railway earnings published weekly in the *Gazette of India* and so materially enhance their value, the Government of India, under the assumption that the proposal will commend itself to the administrations of the several railways, desire that the Agents or Managers of railways under $\frac{\text{the control of the Government of}}{\text{your control}}$ may be moved to issue the necessary instructions for the adoption, with effect from the date of the receipt of this letter, of the revised telegraphic reports herein contemplated, special regard being given to the observations in paragraphs 3 and 4.

7-6-99.—750—K. N. C.
