18/4/99

4. Of the two lines recommended for construction by, or on the responsibility of, Government, No. 1, the Nowshera-Mardan, has been estimated for, and provision has also been made in the ensuing programme of railway construction for its commencement.

No. 2, the Midnapore-Jherria, has been accepted for early commencement of construction for the reason that it will open out all the coal-fields at present demanding railway facilities, and at the same time provide a valuable connection for the traffic between Upper India and the east and south coasts of India. The line, which will also have a famine protective value, has been provided for within the programme.

The Chandipur-Taki Railway has been accepted for construction without any Government guarantee, and arrangements are being made by the Promoters for carrying out the survey and preparation of the detailed project by the agency of the Bengal Central Railway Company. The Shoranur-Cochin railway has also been accepted for construction by the Native State of Cochin without any Government guarantee, while the formation of an independent Company to construct the Ammayanayakanur-Kuruvanath as a tramway without a guarantee under the provisions of the Indian Tramways Act, XI of 1886, has been agreed to, subject to certain conditions.

5. As has been explained on former occasions, the extent to which it is possible to give effect to the recommendations of the Conference in regard to Capital Expenditure on railways other than such as are made by Branch Line Companies under the terms of Government of India Resolution No. 514 R. C., dated 17th April 1895, or by Native States or private Promoters without financial assistance, has been governed up to the end of the year now closing by the limitations of a programme covering the three years, 1895-97 to 1898-99. This programme provided for a total expenditure of Rx. 29,660,000, against which we expect to spend the following amounts:—

	Rx.
In 1896-97 (Actuals)	8,658,800
" 1897-98 (")	8,145,500
" 1898-99 (Revised Estimate)	8,387,500
TOTAL	25,191,800

The Budget Estimate for 1898-99 was prepared for Rx. 10,788,900, but owing to the late arrival of English stores consequent on the engineering strikes in England and other causes, the impossibility of working to the original programme was recognized some time ago, and the Revised Estimate has been reduced accordingly to the sum of Rx. 8,387,500 above shown.

For the three years, 1899-1900 to 1901-1902, on which we are about to enter, it has been thought advisable that we should work on a somewhat less ambitious programme, providing about 6 crores a year for new lines and extensions as against nearly 8½ crores under the previous programme. The chief object of this reduction is to give time for the earnings to overtake the expenditure. The forecast which has been prepared and approved by the Secretary of State works out accordingly to Rx. 20,322,100, distributed as under:—

	Rx.
1899-1900	6,772,700
1900-1901	6,728,400
1901-1902	6,821,000
TOTAL	20,322,100

The additional amount, approximately Rx. 750,000 in each year, which it will be observed has been provided, is due to the inclusion in programme limits from this year of the open line Capital expenditure of the three guaranteed companies and the anticipated expenditure by branch line companies financed on the basis of a firm guarantee instead of a rebate, which items have hitherto been dealt with outside the programme.

The sum set down for expenditure during 1899-1900 is Rx. 6,772,700. In consequence, however, of the heavy lapse, amounting to Rx. 2,401,400, on the grant for 1898-99, to which reference has already been made and which was in a great measure due to short outlay in England consequent on the failure of contractors to complete orders placed with them for stores, it has been agreed, with the concurrence of the Secretary of State, to add a sum of Rx. 1,060,000, representing a portion of this lapse to the grant for 1899-1900, and a further sum of Rx. 1,090,000 subsequently reduced to Rx. 990,000 has been provisionally added under certain conditions with the concurrence of Finance Department, subject to Secretary of State's approval. With this addition the total amount available for expenditure on construction of Railways during 1899-1900 will stand at Rx. 8,822,700.

This sum has been distributed for expenditure on Railways as under:—

	Rx.
34.—Construction of Protective Railways	490,000
48.—State Railways—Construction	3,465,000
Capital of Indian Railway Companies	2,841,900
Branch Line Companies	168,000
Guaranteed Railways and Extensions	1,107,800
East Indian Railway Company's debentures	750,000
Total amount available	8,822,700

6. Statement A appended to this memorandum gives the programme as modified up to date, and shows also the progress made with such of the lines accepted by Government on the recommendation of the Conference for early construction as have been brought within the programme. The distribution of the amount it shows as available for expenditure during 1899-1900 and subsequent years will, of course, be liable to modification according to circumstances.

7. Statements B and C show how matters stand in regard to lines recommended for early construction at the cost of Branch Line Companies, Native States, etc., outside the programme, and either actually taken in hand or under consideration and negotiation with a view to construction; and statement D summarises the actual and anticipated progress of railway construction generally for the two years, 1898-99 and 1899-1900.

A. C. TREVOR.

APPENDIX A

Statement showing the expenditure actually incurred and the estimated further expenditure to be incurred on railways to end of 1901-1902.

TO

Secretary to the Government
L & M. Department.

SIR,

In reply to memorandum No. 137 dated 11.2.99, I have the honor to state that the lands proposed to be acquired is required for the extension of the East Coast Railway line and not for any Railway feeder road. References to the authority sanctioning the estimated cost of the acquisition are not being hitherto noted in the case of land required for the Railway and the Executive Engineer No. 1 open line division states that the authority is the same as that on which all the land for the East Coast Railway has been acquired. I have the honor

THE

To

THE

Orders by sanctioning authority.

1. All applications for leave must be made to, or through the departmental superiors of the applicant in this form; in the case of accountants and members of the upper and lower subordinates, petty or office establishments, they should be accompanied by a duly attested extract from the applicant's service book, showing his previous leave and service. This form is not applicable to applications for furlough from Military officers and subordinates, see Vol. I, Chap. V, paras. 12, 14, 47 and 100.

2. All applications for leave from officers for whom leave and service registers are maintained, will be forwarded by the applicant through the usual channel to the Examiner, who will draw up a statement of previous leave granted to the applicant. If the leave can be granted under the rules, the Examiner will certify the fact. The Examiner will then forward the application and certificate to the officer vested with power to grant the leave or to the local Government or the Administrative Head of a Railway by whom it will be submitted, when necessary, to higher authority.
