**JULY.**

Communicating to the Agents, Madras and South Indian Railways, for information and guidance, letter from the Government of India forwarding an extract from its letter, enunciating the principles which should govern the — and stating that these principles should be adhered to, in future, on the lines under the control of the Government of Madras.

## GOVERNMENT OF MADRAS.

## PUBLIC WORKS DEPARTMENT.

## Railway.

Read the following paper:—

From—The Secretary to the Government of India, Public Works Department.  
To—The Joint Secretary to the Government of Madras, P.W. Dept., Ry. Branch.  
Dated—Simla, 21st June 1899, No. 1175 R.C.

I am directed to forward herewith an extract paragraph 3, from Government of India, Public Works Department, letter No. 1151 R.C., dated the 17th June 1899, to the Consulting Engineer to the Government of India for Railways, Lucknow, enunciating the principles which should govern the allocation of the cost of old and new materials used in the construction of railway works, and to say that these principles should be adhered to in future on the lines under the control of the Government of Madras.

## ENCLOSURE.

Extract from letter from—The Secretary to the Government of India, Public Works Department.  
To—The Consulting Engineer to the Government of India for Railways, Lucknow.  
Dated—17th June 1899, No. 1151 R.C.

3. In this connection I am to lay down the following principles for your guidance:—

- (a) New materials must not be charged to one work and used in another even if both works happen to form portions of the same Capital account.
- (b) If old material taken direct from another work is used in the construction of a new work, no greater amount than the present value of the old material to the new work on which it is actually used, is to be charged to the latter.
- (c) If new permanent-way material is substituted for old on any open line of railway, its cost (or at least the original cost of the old material displaced, as the case may be, under the accepted principles of allocation) must be debited to the Revenue account of the railway, which also would be credited with the present value of the old material obtained.
- (d) If the material removed is relaid in any new line or siding, or other new work, the estimate for this work is to be debited with the value thereof.
- (e) If, however, the material removed is used for renewals in another line or siding already existing at the time of its removal, and borne on the same Capital account, no adjustment of its value between the two lines or sidings need be made.

ORDER—No. 759 Ry., dated 11th July 1899.

Communicated to the Agents, Madras and South Indian Railways, for information and guidance.

(True Extract.)

FRANCIS J. E. SPRING,
