SIR,

Adverting to S. O 598 dated 16th March 1899, requesting the Council to report on para 6 of the report on the Disposition of the South Indian Railway embodied in S. O 226^{Serial}, dated 23rd February 1899, I have the honor to inform you that the Street which is parallel to, and South of the line at the entrance of the Negapatam station yard has been raised to the top of the foundation of the Compound wall to a length of 200 ft. as required, and a protection wall has also been

Constructed at the southern end
of the Street to prevent the earth
from being scoured. The Special

of the Street north of the line near
the level-crossing at the entrance

that the level of the adjoining
houses do not permit of the
