† *In Cons. 27th July 1857.*

In the former of the letters record'd above the Acting Collector reports the death on the 14th April last of Tevovengada Coolapah Naick Pallaiar Zemindar of Nallacotah leaving a son Coolapah Naik aged about 30 years, to whom he recommends continuance of the allowance granted on account of the Estate.

2. The Acting Collector's report being very defective in respect to the value of the Zemindary, its present position in regard to the Government and the principle by which the allowance is regulated further information was called for, and is supplied in the letter of the 30th June last.

Pro. to Collr. 15th May 1857.

3. It appears that when put up at auction for an arrear of revenue the Estate was purchased on account of Government, and has ever since been incorporated in the Government lands.

To Collr 1st August 1856.

4. It was intended to grant to the Zemindar, in common with those of other estates resumed by Government, a fixed hereditary pension, calculated at 10 per cent. on the average collections of the preceding 5 years, and sanction was granted accordingly on the 5th January 1821. From some misapprehension, however, payments were always made at 10 per cent. on the net settlement of each year. The circumstance was brought to the notice of the Board in 1841, but they did not think it desirable to alter the practice which had so long obtained.

Pro. of Board 25th April 1857.

5. As these Pensions were intended to be hereditary the Board resolve to support the Acting Collector's recommendation that the allowance drawn by the deceased may be continued to his son Coolapah Naick. The amount in Fuly 1265 was Rupees 2265-3-5 calculated on the net settlement of that year. On the average of 5 years ending in Fusly 1230 which it was intended to grant as a fixed pension it would have been Rs. 1,766-13-0. Should Government think it right to continue the latter sum only, it should be understood that as regards all the other Poligar Pensions granted at the same time, the same course will be pursued on each lapse. On this point, however, the Board resolve to draw the attention of Government to the Minutes Consultation of Government of the 8th March 1842, No. 313, Revenue Department, accepting the final surrender of the Pollium on the condition of continuing to the Proprietor the allowances he then received of 10 per cent. on the net revenues. This in the Board's opinion precludes reversion to the Pension of Rs. 1,766-13-0 originally intended.

No. 34. From J. B. COCKERELL, Esqr. Acting Sub-Collector of Madura to H. TORRENS, Esq., Acting Secretary to Government, Fort St. George; dated Madura, 12th October 1857, No. 1007.

Sir,

In the absence of the Collector I have the honor to forward copy of the deed of surrender executed by the Zemindar of Nallacotah. The deed was executed in 1819, not in 1813, as mentioned by you.

Fort Saint George, Revenue Consultation of 29th October 1857.

No. 35. ORDER THEREON, No. 1095; dated 27th October 1857.

Referring to para. 5 of the Proceedings of the Board of Revenue above recorded, the Government desire to have before them the original deed of surrender executed by the Nellacottah Zemindar, under the instructions conveyed in Extract Minutes of Consultation 8th March 1842, No. 313; they request therefore that the Board will call for and submit the document at an early a date as practicable.

2. The Acting Sub-Collector of Madura has supplied a copy of a deed of surrender dated in 1819, and his letter would seem to imply that none of a later date had been executed by the Nellacottah Zemindar, but the Government would wish the matter to be beyond doubt, and desire that specific information on this point may be obtained. If this view of the Acting Sub-Collector's letter be correct, the Board will obtain the original deed of 1819 and submit it with a translation.

reluctant to resign all claims to their Estates and the Collector suggest:-ed that they should be put up to sale and purchased in by the Circar. This was in due course of time done, To Collr 1st August and the Nellacottah Estate, against which there was a balance of up-wards of half a lac of rupees, was put up and purchased for one Pagoda. The proceeding seems however to have been merely no-minal to compel the assignment of the Estates, as a few years later the Collector was, under the Board's instructions in correspondence with From Collr 28 April this Zemindar, as to the mode in which he would wish to have his allowance settled.
