Revenue Department

Manuals & Circulars

1857

No. 1. Read the following letter from J. D. SIM, Esq., Acting Secretary to the Board of Revenue; to H. FORBES, Esq., Acting Secretary to Government Revenue Department; dated Fort Saint George 4th July 1857, No. 2287.

Sir,

With reference to para. 2 of Extract Minutes Consultation dated 18th March 1851, No. 268, Revenue Department, I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letters from the officers noted in the margin, reporting on the management, in 1855-56, of the Laungerkhanahs in their Districts.

From the Officiating Agent at Karnool, 9th June in Cons. 23rd Sept. 1856.
From the Collector of Coimbatore, 15th June in Cons. 2d July 1856.
From the Acting Collector of Tanjore, 9th in Cons. 18th August 1856.
From the Collector of Nellore, 6th Sept. 1856 in Cons. 30th June 1857.
From the Collector of North Arcot, 30th Dece. 1854 in Cons. 30th June 1857.
From Do. do. 13th March in Cons. 30th June 1857.

2. The accounts forwarded with these letters have been prepared in accordance with the instructions of Government for the official instead of the calendar year. The accounts for the first four months, viz. from 1st January to 30th April 1855, are furnished separately.

From Government 14th August 1855, para. 7, No. 958, Revenue Department.

3. In this District the Laungerkhanah is maintained from the proceeds of half of a village, Madoor vandy Sattimungulum, which is allotted to the purpose having been assigned as the endowment of the original charity by the ancient Hindu Rajahs. The receipts for the 16 months under review are set down at Rupees 1,591-13-11, and there was a surplus on hand from the collection of previous years up to 30th April 1856 of Rupees 896-13-11. The total income therefore may be taken at Rupees 2,488-11-10.

Coimbatore.	Rs.	A.	P.
1st Quarter of 1855.....	397	15	6
1855-56.....	1,193	14	5
	1,591	13	11
Surplus.....	896	13	11
	2,488	11	10

4. The number of persons relieved in the 1st quarter of 1855 was 6,576, or 1,644 monthly. In the official year 1855-56, the total number was 18,158, or 1,512 per month, the diminution being owing to a reduction in the number of recipients during the last quarter of the year.

	Rs.	A.	P.
1 *Quarter of* 1855 ...	700	11	1
1855-56	1,469	12	9
	2,170	7	10

5. The expenditure during the whole period amounted to Rupees 2,170-7-10 and exceeded the disbursements of the previous 16 months by Rupees 434, and the income by Rupees 377-9-11.

6. The increased charge is attributed to the high price of grain and the large number of persons who received relief. The Collector from January last has reduced the number of recipients from above 50 to 30 daily so as to bring the expenditure of the Institution within its usual income.

7. The surplus charges of the period under report have been defrayed from the amount in deposit which has in consequence been reduced to Rupees 519.

8. The average daily charge per head is shewn to have been As. 1-4½. The calculation in this District is made in what the Board consider the proper manner, viz. by adding up the number of persons who received relief in each day of the month and entering the total as the number relieved in the month. The number who obtained assistance in the year being found in this manner, and used as the divisor with the total cost as the dividend, the quotient shews correctly the average cost per head for one day. It will be seen that great obscurity has arisen from

following a different course in other Districts. The cost per head in Coimbatore was greatly augmented by a large expenditure in medicines in the first quarter of 1855. In the year 1856 the average was 1 anna and a fraction. There were few cases of sickness among the inmates.

Nellore. 9. The management of the Lungerkhanah in Nellore was during the period under report conducted by a Committee consisting of the Civil Judge Collector, Zillah Surgeon, Principal Sudr Ameen, the Civil Court Sheristadar and the Head Accountant of the Collector's Cutcherry.

10. The whole of the recipients were examined by the Committee and all unfit persons removed from the list. The allowances now fixed consisted of raw rice from ½ to ¾ seer and 2 pice for each Pauper. Money allowances ranging from 15 Annas to Rupees 1-15 monthly are now only granted to 32 non-resident persons of whose infirm condition the Committee have satisfied themselves.

11. The income of the institution consists of an annual grant of Rupees 2,940, per annum. The expenditure in the entire period amounted to Rupees 3,641-13-6, being Rupees 3-5-3 less than that of the preceding 16 months.

12. The accounts appear to shew that the total number of persons relieved in the 16 months was 2,407, at an expense of Rs. 3,641-13-6, or about Rupees 1-8 per head, which as the charge for a single person for one day would be monstrous. But it appears from para. 7 of the Collector's report that the number entered in the Statement against each month were relieved in a single day of the month, and that the total number relieved in the year was 72,129 which gives the daily charge per head at about 9 pice.

Kurnool. 13. The Kurnool Lungerkhanah has an allowance of only 30 Rupees monthly, and the late Agent considered that without greatly reducing the number of recipients to pay for the necessary servants it would be impossible to issue cooked food instead of raw grain as ordered by Government.

14. The Officiating Agent's account exhibits 32 persons relieved in a month at a charge of about 30 Rupees, being nearly a Rupee per head. Evidently the same remark applies here that was made in regard to Nellore, 32 persons were, in all probability, relieved each day of the month, and if so, the daily cost per head is only 6 pice which is very moderate.

Tanjore. 15. In Tanjore there are two Lungerkhanahs, one at Coombaconum and the other at Negapatam. The former is under the management of the Zillah Surgeon, and the latter under that of the Head Assistant Collector and the Resident Wesleyan Missionary.

16. The accounts in the Districts have been correctly framed as in Coimbatore. The average number of persons relieved monthly at Coobaconum in the 16 months under review amounted to 586, and of those at Negapatam to 672. The expense at the former place was about 1 Anna, at the latter Anna 1, pice 2 per head.

17. The total expenditure at both Institutions amounted to Rupees 383-10-6 in the first 4 months of 1855, and Rupees 1,000 in 1855-56, the income being 400 Rupees for the former and 1,200 for the latter period.

From Govt. 24th July 1856, *No.* 1251, *P, W. D. Public.* 18. The Acting Collector has been requested to explain how far the late orders of Government in regard to the Devastanum funds will hereafter affect the Lungerkhanahs in Tanjore.

North Arcot. 19. In North Arcot there are also two Lungerkhanahs one at Arcot and one at Vellore, and a Dispensary is also maintained at each of those towns from the Lungerkhanah funds.

20. The number of persons relieved at Vellore averaged 319 daily for the 16 months, and that at Arcot 139.

21. The aggregate charge of both institutions for the 16 months reported on amounted to Rupees 11,723-11-7, being Rupees 87 beyond the expenditure of the previous 16 months, but 1,117 below the sanctioned amount.

22. The appropriation of a portion of these funds to the maintenance of 2 Dispensaries has necessitated the utmost economy in the management of the Lungerkhanahs. Both of these institutions have this year been carefully examined by the Sub-Collector Mr. Sullivan. The number of recipients has been reduced at Vellore to 323, and at Arcot to 99 daily.

23. The entire funds amount to Rupees 9,333-11-9 per annum, of which Rupees 5,705-4-0, are set aside for the Dispensaries, leaving Rupees 3,628-7-9 available for the Lungerkhanahs. At the average prices of grain during the last year the expenditure will still exceed the income by about 700 Rupees, the average price however is likely to be lower than this calculation, makes it owing to the occurrence of three very bad seasons in the series, and the Board trust that from this cause and by further reductions among the recipients the expenditure will fall within the income.

24. The different modes in which the accounts have been prepared preclude the Board from furnishing as they would wish to have done an abstract at the end of these Proceedings. They resolve to forward a copy of the account received from Coimbatore to Nellore, Kurnool and North Arcot, with a request that it may be adopted in future reports.

Enc. No. 1 *in from Coimbatore* 18*th June in Cons. 2d July* 1856.

25. The Board recommend that sanction may be granted for the disbursements particularized below amounting to Rupees 19,399-12-1.

	Rs.	A.	P.
Kurnool, ...	480	0	0
Coimbatore, ...	2,170	7	10
Tanjore, ...	1,383	11	2
Nellore, ...	3,641	13	6
North Arcot, ...	11,723	11	7
	19,399	12	1

26. There are no Lungerkhanahs in any other District.

27. The Board have called for the reports of the past year and hope to lay them before Government at an early period.

No. 2. Order thereon, No. 1176; dated 18th November 1857.

With this letter, the Board submit the Reports of the local officers on the management in the first four months of 1855, and during 1855-56, of the Lungerkanahs in Coimbatore, Nellore, Kurnool, Tanjore and North Arcot.

2. Two separate Statements, viz. one for the first four months of 1855, and the other for the official year 1855-56, are submitted from each District, to give effect to the orders conveyed in the concluding para. of Extract Minutes Consultation dated 14th August 1856, No. 958, for the substitution of the official for the calander year in the preparation of these Returns. The Board, in para. 24 of their present letter, state that the different modes in which the accounts have been prepared, preclude their furnishing an abstract of the operations. The Government do not see the difficulty; the forms of accounts are all the same, though in some, unnecessary details are exhibited. Their faulty preparation will be noticed hereafter, but, as far as they represent them, the operations of the institutions during the periods alluded to were as follows:

Districts.	First four months of 1855.						1855-56.						Total.					
	Number of persons relieved.	Cost.					Number of persons relieved.	Cost.					Number of persons relieved.	Cost.				
		Rs.	A	P				Rs.	A	P				Rs.	A	P		
Coimbatore, ...	6,576	700	11	1			18,152	1,469	12	9			24,728	2,170	7	10		
Kurnool, ...	3,840	120	...	...			11,460	360	...	...			15,300	480	...	...		
Nellore, ...	15,090	730	3	7			57,120	2,911	15	5			72,210	3,642	3	...		
North Arcot, ...	55,080	2,682	...	3			1,65,090	9,041	11	4			2,20,170	11,723	11	7		
Tanjore, ...	5,487	385	10	6			14,646	1,000	...	8			20,133	1,385	11	2		
Total	86,073	4,618	9	5			2,66,468	14,783	8	2			3,52,541	19,402	1	7		

Note—The entries in the Returns from Kurnool, Nellore and North Arcot have been corrected so as to give in this abstract the actual number of persons fed throughout the entire period.

3. The total number of persons relieved during the 16 months was 55,117, at a cost of Rupees 19,402-1-7. The Board solicit sanction for Rupees 19,399-12-1; but the Government observe that the former sum is the correct one. The difference, Rupees 2-5-6, is found in the Returns of the Nellore and Tanjore Districts as shewn in the margin. The following table compares the actual expenditure with the sums available for the purpose.

	Total cost given in column 10 of the Statement.			According to the details as shewn in columns 7, 8 and 9.			Increase.

Deduct.			
Kurnool.....	480	0	0
Remainder...	18,922	1	7

In the Returns from Kurnool, the actual expenditure is entered at Rupees 480* (the full amount authorized); and for that sum the Board request sanction, but in the last columns of the Statements, the Agent shews a saving of Rupees 8-1-6,† and the sum to be sanctioned in that case will be Rupees 471-14-6. Explanation must therefore be afforded as to which is the correct sum before the requisite sanction is accorded. In Coimbatore, the disbursements have exceeded the authorized sum, but the Collector explains that the excess was met from the surplus of the collections of the village granted for the support of the institution; the Right Honorable the Governor in Council therefore sanctions the entire expenditure, (with the exception of that of the Kurnool Lungherkanah) amounting to Rupees (18,922-1-7) eighteen thousand, nine hundred and twenty two, anna one and pice seven.

4. The comparison of the expenditure for the 16 months under review, with that of the previous 16 months, as set down by the Board, is specified in the margin, but the information required in the latter part of para. 4 of Extract Minutes Consultation dated 14th August 1855, No. 953, in regard to the proportions of the difference attributable to change in the numbers relieved, to modification of the quantities of food distributed to each applicant, and to a variation in the price of food, not having been furnished, the comparison in question is of little use. The Government hope that the Collectors will not find it difficult to supply the omission in their future Reports.

5. In para. 5 of Extract Minutes Consultation dated 14th August 1855, No. 953, the Government directed that the practice in Kurnool, of issuing raw grain should be discontinued,

and that, in its stead, boiled rice only should be distributed for the future. The Officiating Agent explains, however, in his letter dated 9th June 1856, now submitted by the Board, that the change would press heavily on the very small allowance of 30 Rupees per mensem granted for the Lungherkanah, in consequence of there being persons of different castes on the list of the institution, a circumstance which would necessitate the employment of separate cooks and other servants on fixed salaries. On this ground, the late Agent continued the practice of issuing raw grain; and the Right Honorable the Governor in Council will not disturb the present mode of distribution followed in the Kurnool Lungherkanah.

6. From the concluding para. of Mr. Elton's letter dated 6th September 1856, also now submitted, the Government presume that the practice of issuing raw grain with money allowance obtains in Nellore also. The Government have, in Extract Minutes of Consultation dated 15th November 1853, No. 1263, requested the Board to insist on the substitution of cooked food, unless there are other and better grounds against its adoption than those previously assigned by the Collector; and the Board will be good enough to report what measures have been adopted to introduce the change.

7. The form prescribed in Extract Minutes of Consultation dated 14th August 1855, for the annual Returns of Lungherkanah expenditure, does not appear to have been correctly understood, except in one or two districts. The Coimbatore Returns appear to be so, but it is not clear whether from Nellore also appear to be so, but it is not clear whether the numbers entered in columns 2 to 4 constitute the totals of the number daily relieved, as it ought; and in column 6, instead of the average rate of relief, the price of rice is entered. By the average rate is meant the average of the rates that may be specified in column 5 as exemplified in the margin.

Entries in column 5.
$\frac{1}{2} + \frac{1}{2} + \frac{1}{4} = \frac{5}{4}$
$\frac{5}{4} \div \frac{4}{1} = \frac{5}{16}$ *or* $\frac{1}{3}$ *which is the rate to be entered in column* 6.

8. In the Kurnool Returns, the numbers entered in columns 2 to 4 are not the aggregates of the daily reliefs during each month as they should be, in future Returns this principle must be carefully attended to, in all the Districts. In column 5 (rates of relief) the Agent enters, at least so it is presumed, the sums which constitute the cost of each month's supply of food, this is erroneous. There is a separate column provided for the entry of cost, and column 5 should shew the different rates of allowance, whether full, three quarter, half, or quarter, that may be given, the following column shewing the average of the same.

9. In the Returns of the Combaconum Lungherkanah also columns 5 and 6 have not been correctly filled up, the rates at which rice was purchased appear to be the entries made in them.

10. There is nothing very particular to be noticed in the Negapatam Lungherkanah Returns; it must however be pointed out that the excess in the expenditure of certain months over the proportion of the sanction for those months is entered as saving in the last column; for the sake of simplicity this column can be sub-divided into "Increase" and "Decrease," the net difference being shewn below the total for the twelve months. The North Arcot Returns are extremely incorrect. They are in the first place prepared on large paper in unnecessary detail; for all that is required is to be found in the abstract entered below the Vellore Lungherkanah Statement for 1855-56, and half a sheet of foolscap would have been quite sufficient to furnish it. Columns 5 and 6 have been altogether misunderstood. The quantity of rice issued appears to have been entered in them instead of "rates." In no District can it be more simple than in North Arcot to fill up these columns. The Government believe that there, certain prescribed rates of relief in so many rupees weight of rice prevail, and the information required in the columns alluded to can therefore be easily filled up in the manner exemplified in the margin; it is not necessary that the number of recipients who have been fed at each rate should be shewn separately, and the Statement ought under this plan to consist of only 12 lines for the 12 months. The Government have thought proper thus to notice at length the defects in the several accounts in order to avoid their repetition in future Returns.

Rates of relief Rs.	*Average weight.*	*rate.*
60	40-32	44

11. The Government observe that the letter from the Collector of North Arcot dated 13th March last, No. 60, (submitted with the Board's Proceedings above recorded) giving cover to

the Report furnished by the Sub-Collector of that District on the Financial position of the Lungerkanahs and Dispensaries at Arcot and Vellore, in reference to the requisition made in para. 3 of Extract Minutes of Consultation dated 6th May 1856, No. 453, has not received that attention from the Board which it required. The Report in question is a special one, called for for the important purpose of determining whether the amount saved from the Lungerkanah Funds would justify the continuance of both the Dispensaries; and the Board will not fail to see on reference to the Extract Minutes of Consultation above quoted, the necessity of giving the subject their mature consideration, and assisting the Government with their opinion. The Right Honorable the Governor in Council resolves therefore to return the papers to the Board to be again laid before him in a more satisfactory manner. In the last para. of his Report, Mr. Sullivan remarks that he would not urge the amalgamation of the two Dispensaries with a view to reduce expenditure, till the working of the current year has been reviewed. Now that the year is expiring it will be well for the Board to call upon Mr. Sullivan, through the Collector, to submit a report in January next on the working of the Institutions during 1857, and to take it also into their consideration.

12. The Government must notice the manner in which Mr. Whittingham has transmitted Mr. Sullivan's Report; all questions of importance, and the Government consider the present to be one, should receive full consideration from the head of the Province, and his communication transmitting Reports from his subordinates should invariably contain an expression of his own opinion.

(Signed) H. FORBES,
Acting Secretary to Government.

24. The defendant avers and believes that the account in the Court from yesterday as they would have there on a Count of Three Proceedings they acted to form a book of the account printed from Colonial Office to Mexican Records, and Mexico Court, until a request that we may be admitted in Justice of Court.
