No. 60. Read the following papers.

Official Memorandum from J. D. SIM, Esq., Acting Secretary to the Board of Revenue; to the Acting Secretary to the Government of Fort St. George; dated Fort St. George, 10th October 1857, No. 3409.

The Acting Secretary to the Board of Revenue has the honor to inform the Deputy Secretary to Government, Revenue Department, with reference to his Memo. dated 8th Instant, that the papers returned by the Honorable the Court of Directors have been found to be correct and in good order.

No. 61. Memorandum from Lieutenant Colonel G. BALFOUR, Inspector General of Ordnance and Magazines; to the Secretary to Government of Fort Saint George; dated 12th November 1857, No. 462.

Dated 25th Sep. 1857.
" *8th Oct.* "
" *2d Nov.* "

With reference to the Memoranda from the Secretary to Government, Revenue Department, specified in the margin relative to a box of instruments received per ship "*Harvest Home*," the Inspector General of Ordnance and Magazines has the honor to forward herewith copy of Extract from the Proceedings of a Committee of Engineer Officers who examined the case of instruments forwarded with Memo. from the Secretary to Government dated 25th September 1857, together with copy of a receipt to the Principal Commissary of Ordnance from the Assistant to the Chief Engineer. The Inspector General begs to state that definite instructions were given to the Principal Commissary of Ordnance to examine the instruments and to report upon them, but by an oversight that officer forwarded the box to the Chief Engineer unopened, and this circumstance the Inspector General regrets to observe, has occasioned the delay in supplying the information called for by the Secretary to Government.

Extract from the Proceedings of a Committee assembled at Fort Saint George, for the purpose of examining the contents of a case of scientific instruments.

The Committee recommend that a receipt shewing the state of the articles be sent to the Principal Commissary of Ordnance, and it is of opinion that the breakage that has occurred is attributable to the peculiar form of the instruments rendering fracture of the bent shoulder, in consequence of the weight of the bulb, unavoidable, without extremely careful packing when the cases containing them are liable to rough treatment whilst on the way out from England.

Fort Saint George, Revenue Consultation of 24th November 1857.

No. 62. ORDER THEREON, No. 1207; dated 24th November 1857.

It appears from the above, that the contents of the box forwarded to the Board of Revenue, viz. "a packet of official papers relating to weights and measures," were found correct and in good order, but that the stores packed in case No. 117, and forwarded to the Inspector General of Ordnance and Magazines, were found to be greatly damaged. The Government resolve to forward the reports in question to the Master Attendant, in continuation of an official Memo. from this Department dated 1st October last.

The Government also resolve to forward the report of the Inspector General of Ordnance and Magazines on the damaged condition of the stores to the Honorable the Court of Directors for their information.

(Signed) H. FORBES,
Acting Secretary to Government.
