Stancher this is necessary.
not give it. This is a very
trifling charge & the
disturbance of the people for water
in the high lands is very great. H

I should say the British would
be to change the cost
of a water pump in the
country. But if it
is allowed at all, but
the returning a great con-
venience & comfort
to the servants of the Gov

= giving the lotus during
the extreme heat I
do not see that it is
more necessary to be
maintained at
Madras at the expense
of Govt than at any
other salt water
if it is sanctioned at
Madras it will be
difficult to refuse
similar applications
from all districts
