(79-50)

2/389

Fort Saint George, Revenue Consultation of 28th April 1857.

No. 49. Read the following *Extract from the Proceedings of the Board of Revenue*; dated 15th April 1857, No. 1136.

Read letter from the Collector of Bellary dated 9th December 1856* reporting on the tank at Gootloor in the Durmawarum talook of his district as required by Government in Extract Minutes Consultation, No. 833, dated 7th August 1856.

(Here enter No. 122.)

Resolved that the foregoing letter be forwarded for the information and orders of the Right Honorable the Governor in Council, with reference to para. 3 of Extract Minutes Consultation, No. 833, dated 7th August 1856.

2. The Collector states that the tank of Gootloor in the Durmawarum talook of his District, referred to by Government in the Extract quoted above, was breached about 54 years ago; the extent of the lands then cultivated under it is not known, and the cultivation at present by means of the stream passing through the breach is about 50 acres, bearing an assessment of Rupees 255.

3. The cost of repairing the tank, was estimated in April 1855, at Rupees 6,400 by Assistant Revenue Surveyor Ross, but the Tahsildar thinks that a further sum of Rupees 2,000 would be necessary.

4. The ryots are reported to be willing to take up 200 acres of land assessed at Rs 875, if the tank be repaired thoroughly. This would amount to a return of about 10 per cent, on the outlay supposing the Tahsildar's estimate of the repairs now required to be correct. The estimate will however be submitted for the opinion of the District Engineer before it is forwarded.

5. With reference to the mode and amount of remuneration to the Neergunty, the Collector states that either 1½ acres assessed at Rupees 13-2-0, or 15 Rupees per annum, (to be deducted from the Beriz of the village and charged in the annual accounts) may be given to that officer, and that this will be sufficient, (pending the thorough repair of the tank) for regulating the water to 50 acres, the extent under cultivation at present.

6. It seems to the Board of little consequence which mode of remuneration is adopted in an isolated case like the present.

(A true Extract.)

(Signed) J. D. SIM, *Acting Secretary.*

No. 50. ORDER THEREON, No. 389; dated 28th April 1857.

1. As a general principle, the Government prefer remuneration in money to the grant of rent free lands, and sanction a deduction of 15 Rupees per annum from the beriz of the village of Gootloor in Bellary as remuneration to the Neergunty for controlling the irrigation of 50 acres of Nunjah land in that village.

2. The proposal to repair the tank will be considered when the estimate is submitted in the Public Works Department.

(Signed) H. FORBES,
Acting Secretary to Government.
