Fort Saint George, Revenue Consultation of 23d June 1857.

No. 46. Read the following Extract from the Proceedings of the Board of Revenue; dated 9th June 1857, No. 1933.

Read letter from the Collector of Bellary dated 26th February 1857,* requesting permission to grant certain portion of Circar land to two Enamdars of the village of Nittoor in Taudputry talook of his District in exchnage for their enam lands about to be taken up in the construction of a new channel

* *In Cons. 9th June* 1857.

(Here enter No. 16.)

In this letter, the Collector of Bellary requests sanction to give two Enamdars of the village of Nittoor of Taudputry talook in his District 3 acres and 25 Goontahs of Circar land in lieu of the same extent of enam required for a new channel. The former land bears a survey assessment of As. 8½ and an extra cess for irrigation of Rs. 21-2-4, making a total sum of Rs. 21-10-10, and the latter bears a survey assessment of Rs. 1-1-10, but it is stated by the Collector to be really more valuable as it has been greatly improved by the construction of wells at the owner's expense.

2. The circumstances which render a new channel necessary are briefly as follows. The fields of the village of Yanoomoolachinthala in the Cuddapah District were at one time watered by a channel which commenced in the District of Bellary and flowed through two of its villages (Nittoor and Madoocooty) situated in the talook of Taudputry.

3. This channel became useless from river floods, and another with a new head was cut in 1851-52 which has also been reduced to the same state from the same cause. The Yanoomoolachinthala fields are in consequence almost entirely waste. The Beriz of the village has decreased from a ten years' annual average of Rs. 1,078 in 1850-51 to Rs. 397 which is the average for the following five years, but in one of the five no revenue was realized, and in another only 97 Rupees.

4. To restore the cultivation of the village the Collector of Cuddapah suggested the excavation of a new channel in another direction, but passing through the same villages in Bellary, and the Civil Engineer estimates the cost at Rupees 4,720. The ryots and enamdars whose lands are required for the work, or will be injuriously affected by it, at first objected; but the former have now agreed to relinquish their lands, and the latter to take other land, in exchange.

5. The assessment on the lands (24A. 24G.) required for the new channel in the two Bellary villages amounts to Rupees 103-2-10, while the loss to the ryots and Government in Yanoomoolachinthala from the want of irrigation is considerably larger as shown in para. 3 of these Proceedings. The Board recommend that the Collector may be authorised to carry out the exchange proposed by him and noticed in para. 1 of these Proceedings.

6. The land intended to be given to the Enamdars belongs at present to a ryot who has consented to give it up, and it does not appear from Mr. Pelly's letter that either this ryot or any of the others seek compensation for the lands they have agreed to surrender.

7. On this point the Collector should have been more explicit.

No. 47. ORDER THEREON, No. 621; dated 22d June 1857.

Agreeably to the recommendation of the Board of Revenue, the Right Honorable the Governor in Council authorizes the Collector of Bellary to give to the two Enamdars of Nittoor, of the Taudputry talook in his District, 3 Acres and 25 Goontahs of Circar land, in lieu of the same extent of Enam land required for a new channel, to secure irrigation to the fields of the village of Yanoomoolachinthala in the District of Cuddapah. The Government observe that an Estimate for this work, amounting to Rupees 4,720, was sanctioned on 30th November 1855.

Conspiracy

stated by the Collector to be really more valuable as it has been greatly improved by the construction of Wells at the owners' expense.

2 The circumstances which render a new channel necessary are briefly as follows. The fields of the village of Yanoomoolachinthala in the Cuddapah District were at one time watered by a channel which commenced in the District of Bellary and flowed thro' two of its villages (Nellor and Madooroody) situated in the Taluk of Jandpatry.

3. This Channel became useless from river floods and another with a new head was cut in 1851/52 which has also been reduced to the same state from the same cause. The Yanoomoolachinthala fields are in consequence almost entirely waste. The Revenue of the village has decreased from a ten years' annual average of Rs. 1078 in 1850/51 to Rs. 397 which is the average for the following five years. but in one of the five no revenue was realized and in another only 97 Rupees.

To restore the cultivation of the village the Collector of Cuddapah suggested the excavation of a new channel in another direction but passing thro' the same villages in Bellary, and the Civil Engineer estimates the cost at Rs. 4720. The Ryots and Enamdars whose lands are required for the work or will be injuriously affected by it, at first objected but the former have now agreed to relinquish their lands and the latter to take other land in exchange.

5 The assessment on the lands (a 24. c 24) required for the new channel in the two Bellary villages amounts to Rs. 103. 2. 10 while the loss to the ryots and Government in Yanoomoolachinthala from the want of irrigation is considerably larger as shown in para 3 of these Proceedings. The Board recommend that the Collector may be authorised to carry out the exchange proposed by him and noticed in para 1 of these Proceedings.

6. The land intended to be given to the Enamdars belongs at present to a ryot

ryot who has consented to give it up, and
it does not appear from Mr Pelly's letter
that either this ryot or any of the others
seek compensation for the lands they
have agreed to surrender.

On this point the Collector
should have been more explicit.
