Resolved that the foregoing letter and its accompaniments be submitted to the Right Honorable the Governor in Council.

The following is an Abstract of the Accounts of the 2 Quarters.

4th Quarter of 1856.

Balance at commencement of Quarter	94905.

	<u>271313.</u>

" for Island consumption - 28532. 68881.

Remaining at end of the Quarter 215,230.

3. The falling off in the sales as compared with those in the corresponding Quarters of the previous years has been very large. The Acting Collector states that the recent enhancement of the price by about 16 per cent and increase smuggling along the Cochin Frontier, sufficiently account for this result. The change from measuring to weighing which causes a further loss to the consumer of about 15 per cent as already reported has also, he observes, affected the sales to some extent, and it is thought that the Island Merchants now resort to Mangalore where the Article is still sold by measurement.

4. The quantity of salt in store at the end of the last Quarter reported on, viz 215,230 Indian Maunds is considered adequate to meet the demand for several months.
