No. 978.

No. 15. Extract from the Minutes of Consultation under date the 24th September 1857.

Tabular Report on lapsed enams in the District of Bellary for the 4th Quarter of 1855, submitted by the Board of Revenue 5th September 1857, No. 2947.

1. This is an enam held without grant. The deceased is the son of one, and the grandson of another holder at the time of the Survey. He has now died without heirs; his nearest relations being divided cousins. His share assessed at Rupees 11-1-0 (not 11-1-4; though it is observed that the aggregate of the shares in column 6, does not correspond with the total of the entire enam in column 2) will be considered as having lapsed from the date of his death.

Widow.
Uncle's daughter-in-law.

2. The possession of this enam is totally unaccounted for by documentary evidence. It is said to have been obtained by gift from the brother of the person in whose name it is entered in the Pymash accounts. But there is no deed to prove this transaction; and it is not clear why the Collector assumed its authenticity without proof. The two female connections left by the deceased, (the latter of whom, the widow of the son of the uncle of the deceased, would not be entitled to claim, under any circumstances) are said to have other enam land assessed at Rupees 46-11, and the Government fully concur in the recommendation of the Board that the Shrotrium, &c., under notice should be resumed as a recent and unauthorized alienation.

3. It appears from column 7, that certain enams have been continued to the two connections of the deceased "by the powers vested in Collectors." The Board will be good enough to procure and forward the Tabular Statements on which these decisions were passed for the information of Government.

3. *Dhurmavarum talook charity enams.*
Total assessment Rs. 41-3-2.

4. The deceased holder of these, held without grant, was the nephew, cousin, and distant cousin, respectively, of three individuals in whose names the enams were entered in the Survey accounts. The whole share originally possessed by him was assessed at Rupees 86-0-5, but of this, he is said to have given about half, assessed at Rs. 44-13-3, to his brother's daughter, on her marriage. There is no document to prove this transaction, and it is denied by other claimants, distant relations of the deceased; no claim can consequently be said to arise from it. Government are of opinion that, inasmuch as the deceased's niece, who now claims the enam, has married into another family, she can have no lien upon the deceased's share; but as it is represented that she and her husband have been wholly dependant upon the enam, and that its sudden withdrawal would distress them, the Government are pleased to accede to the recommendation of the Board of Revenue, and to continue the niece's portion to her for life, the remainder being resumed at once.

5. Here the enams have been held without grant; and both the Board and the local authorities have omitted to state the relationship of deceased to the person who held the enam at the Pymash; which, under any other circumstances, would have prevented the Government from deciding upon the case until they had procured further information, but inasmuch as the deceased has died without any heir, except an alleged adopted son, whose adoption is disputed, and is supported by no deed, the Government concur with the Board that the enams have escheated to the state. The information adverted to above as omitted in the present case, should be invariably furnished.

* *The wife of a cousin of the holder at the Pymash.*

6. Will be resumed; deceased having left no relations but distant divided cousins.

7. The last legitimate holder* of this enam died 30 years ago, and a remote descendant of a long divided branch of the family took possession, and has enjoyed it since, without title. The Board recommend resumption, and this course is sanctioned. But it appears that with this enam, a Punchangum enam was also held by the deceased, and was similarly taken possession of by the divided cousin, but was afterwards transferred to his elder brother, by order of the Sub-Collector. This was possibly unauthorized, but before acceding to the Board's recommendation to resume, the Government request information as to whether the service is still performed, and, (adverting to the enam in question being only a half share,) how, as a service enam, it came to be divided.

(Signed) H. FORBES,
Acting Secretary to Government.
