Diary 28. 9. 1858

No. 13. Read the following letter from H. NEWILL, Esq., Director Revenue Settlement; to W. H. BAYLEY, Esq., Acting Secretary to Government Fort St. George; dated Guntoor 28th August 1858, No. 463.

SIR,

I have the honor to forward the receipt of the Superintendent of Revenue Survey for the Survey Instruments received from Calcutta as directed in Extract Minutes of Consultation under date the 16th June 1858, No. 828, together with a copy of Captain Priestley's letter* enclosing the same to me, in which he explains that the only serious damage is in the breakage of the tracing glass and also that a slight fracture found in one of the Theodolites can be repaired at the work-shop at Dowlaishweram.

* *Dated 21st Instant.*

From Captain F. J. B. PRIESTLEY, Superintendent Revenue Survey; to H. NEWILL, Esq., Director of Revenue Settlement; dated Nursapore, 21st August 1858.

SIR,

I regret that I have been hitherto prevented by illness from forwarding the receipts for Surveying Instruments, &c. received from Bengal, which I now do myself the honor to enclose.

It will be observed that the only loss of consequence is that of the tracing glass. The slight fracture of the arm of a small Theodolite can I think be repaired in the Engineer Work-shop at Dowlaishweram distant from here only forty miles. The cross staves, &c., have not been sent as explained in Major Thuillier's letter of the 2d June 1858.

Ordered in consequence that the following letter be despatched.

No. 14. From T. PYCROFT, Esq., Chief Secretary to the Government of Fort Saint George; to Major H. S. THUILLIER, Superintendent Mathematical Instrument Department, Calcutta; dated 23d September 1858, No. 1295.

SIR,

I have the honor to transmit to you four receipts† signed by the Superintendent of Survey for Instruments and other articles received at this Presidency as advised in your letters noted in the margin.‡ A copy of his letter§ is also enclosed to inform you of the injury which the tracing glass is stated to have sustained.
